# Audit & Risk Committee Meeting

# Agenda for Monday 17 November 2014

# shire of **kalamunda**

# NOTICE OF MEETING AUDIT AND RISK COMMITTEE

Dear Councillors

Notice is hereby given that the next meeting of the Audit & Risk Committee will be held in the Council Chambers, Administration Centre, 2 Railway Road, Kalamunda on **Monday 17 November 2014 at 7.00pm**.

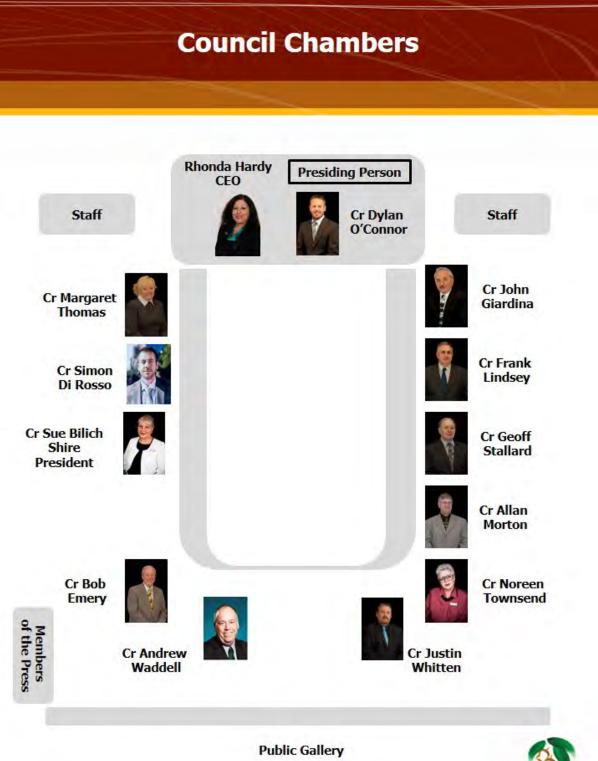

Rhonda Hardy Chief Executive Officer 12 November 2014

Our Vision and Our Values
Our Vision
The Shire will have a diversity of lifestyle and people. It will take pride in caring for the natural, social, cultural and built environments and provide opportunities for people of all ages.
Our Core Values
Service – We deliver excellent service by actively engaging and listening to each other.
Respect – We trust and respect each other by valuing our difference, communicating openly and showing integrity in all we do.
<b>Diversity</b> – We challenge ourselves by keeping our minds open and looking for all possibilities and opportunities.
Ethics – We provide honest, open, equitable and responsive leadership by demonstrating high standards of ethical behavior.
Our Aspirational Values
Prosperity – We will ensure our Shire has a robust economy through a mixture of industrial and commercial development.
Harmony – We will retain our natural assets in balance with our built environment.
Courage – We take risks that are calculated to lead us to a bold new future.
Creativity – We create and innovate to improve all we do.

# Audit & Risk Committee Meeting Procedure

- 1. Audit & Risk Committee is not open to the public.
- 2. Audit & Risk Committee has a membership of all Councillors.
- 3. The Committee makes recommendations only to Full Council (held on the fourth Monday of each month at 6.30pm).
- 4. All other arrangements are in general accordance with Council's Audit & Risk Committee Terms of Reference February 2013.

# AGENDA

# 1.0 OFFICIAL OPENING

#### 2.0 ATTENDANCE, APOLOGIES AND LEAVE OF ABSENCE PREVIOUSLY APPROVED

2.1 Cr Noreen Townsend, leave of absence

#### 3.0 CONFIRMATION OF THE PREVIOUS MINUTES

3.1 That the Minutes of the Audit and Risk Committee Meeting held on 4 August 2014, as published and circulated, are confirmed as a true and accurate record of the proceedings.

Moved:

Seconded:

Vote:

#### **Statement by Presiding Member**

"On the basis of the above Motion I now sign the Minutes as a true and accurate record of the meeting of 4 August 2014".

#### 4.0 CONFIDENTIAL ITEMS

4.1 Nil.

#### 5.0 DISCLOSURE OF INTERESTS

#### 5.1 **Disclosure of Financial and Proximity Interests**

- a. Members must disclose the nature of their interest in matters to be discussed at the meeting. (Section 5.65 of the *Local Government Act 1995.*)
- b. Employees must disclose the nature of their interest in reports or advice when giving the report or advice to the meeting. (Section 5.70 of the *Local Government Act 1995*.)

#### 5.2 **Disclosure of Interest Affecting Impartiality**

a. Members and staff must disclose their interest in matters to be discussed at the meeting in respect of which the member or employee had given or will give advice.

# 6.0 **REPORTS TO COUNCIL**

Please Note: declaration of financial/conflict of interests to be recorded prior to dealing with each item.

#### Declaration of financial / conflict of interests to be recorded prior to dealing with each item.

#### 18. Internal Audit Report October 2014

Previous Items	
Responsible Officer	Director Corporate Services
Service Area	Internal Auditor
File Reference	
Applicant	Nil
Owner	Nil
Attachment 1	Internal Audit Plan 2014/2015
Attachment 2	Key Control Activities
Attachment 3	Recommended Monitoring Activities
Attachment 4	Audit Risk Register
Attachment 5	Internal Audit Report October 2014

#### PURPOSE

1.

- To provide the Audit and Risk Committee with assurance of:
  - The financial and statutory functions of the Shire are being undertaken in accordance with the provisions of the *Local Government Act 1995,* associated regulations and Australian Accounting Standards; and
  - The local government processes and financial systems relating to Risk Management internal control and legislative compliance are appropriate.

#### BACKGROUND

2. The Internal Audit is guided by an annual Internal Audit Plan (Attachment 1) which identifies the auditable areas and the scheduled audit review dates. The Audit Function conducts risk reviews to determine whether key internal controls are in place and operating effectively (Attachment 2). The Audit Function also conducts a review to determine that appropriate monitoring activities are in place to support the overall control environment (Attachment 3). Finally, to ensure that identified audit findings are resolved in a satisfactory and timely manner, an Audit Risk Register has been established (Attachment 4).

# DETAILS

- 3. The Internal Auditor examined a number of areas and conducted a review of Key Control Activities and Recommended Monitoring Activities. Items noted from this review have been referred to management for attention or inclusion in the Audit Risk Register for monitoring and actioning by management. The Internal Audit Report (Attachment 5) included a review of a number of statutory documents for compliance with legislation:
  - Agendas and Minutes
  - Adopted Budget for 2014/2015
  - Annual Report for 2012/2013
  - Monthly Statements of Financial Activity for July 2014
  - Code of Conduct
  - Creditors Payments

- Succession Planning
- 4. Key findings of this review are:

### **Agendas and Minutes**

5. The content of Agendas and Minutes comply with legislative requirements and good practice, however issues with maintenance and storage of these critical documents need to be addressed.

### Annual Budget

6. The Annual Budget for 2014/2015 included all the prescribed statutory statements and were submitted to the Department of Local Government and Communities within 30 days, with the exception of fees and charges.

# **Annual Report**

7. The Annual Report for 2012/2013 included all the prescribed information and complied with legislative requirements except for public notice on the availability of annual report.

# Monthly Statement of Financial Activity

8. The Shire of Kalamunda exceeds the minimum requirements for monthly financial reporting by providing additional information to Elected Members.

#### **Code of Conduct**

9. The current Code of Conduct is comprehensive and complies with legislative requirements. New draft Codes of Conduct have been prepared and reviewed by the Shire's lawyers.

#### **Creditors Payments**

10. Policy and procedures are being followed for the majority of creditor's payments. There were a few instances where purchase orders were not raised. This had been picked up and rectified.

# **Succession Planning**

11. There are a number of areas in the organisation where the risk of losing key personnel may have a detrimental impact on the smooth running of the Shire. There needs to be training of staff within these areas to back up these key personnel.

#### STATUTORY AND LEGAL CONSIDERATIONS

12. Local Government Act 1995 Local Government (Financial Management) Regulations 1996 Local Government (Audit) Regulations 1996 Australian Accounting Standards

# POLICY CONSIDERATIONS

13. Purchasing Policy, Code of Conduct.

# COMMUNITY ENGAGEMENT REQUIREMENTS

14. Nil.

# FINANCIAL CONSIDERATIONS

15. The implementation of the recommendations will reduce exposure to financial risk and loss to the Shire and ensure it complies with legislative requirements.

### STRATEGIC COMMUNITY PLAN

#### **Strategic Planning Alignment**

16. Kalamunda Advancing: Strategic Community Plan to 2023

Strategy 6.3.3 Regularly review the organisations structure and procedures in response to changing circumstances.

Strategy 6.8.4 provide effective financial services to support the Shire's operations and to meet sustainable planning, reporting and accountability requirements.

### SUSTAINABILITY

#### **Social Implications**

17. Nil.

#### **Economic Implications**

18. Nil.

#### **Environmental Implications**

19. Nil.

#### **RISK MANAGEMENT CONSIDERATIONS**

and adoption of				Annual Budgets
Annual budgets				and Annual
				Reports

Risk	Likelihood	Consequence	Rating	Action/Strategy
Inadequate succession planning adversely effects service delivery	Likely	Major	High	Introducing a succession plan and providing good documentation and training for back up staff.
Failure to raise purchase orders in a timely manner in line with policy	Possible	Minor	Medium	Suppliers will be advised that invoices must be proceeded by a purchase order
The Council does not accept the recommendation of the Internal Audit Report	Unlikely	Minor	Medium	Council is briefed on the implications of failing to accept the Internal Audit Report.

# **OFFICER COMMENT**

- 21. The issues identified and recommendations were discussed with management to mitigate risk, strengthen the internal control practices of the Shire and ensure the Shire was compliant with legislation. The items noted will be placed in the Audit Risk Register for timely monitoring and actioning.
- 22. The Annual Audit Plan is supported by the Key Control Activities, Recommended Monitoring Activities which are used to form an opinion as to the appropriateness of the Shire's financial systems in relation to risk management, internal control and legislative compliance.
- 23. The establishment of an Audit Risk Register provides the mechanism to ensure that audit findings are addressed in a satisfactory and timely manner.

#### Voting Requirements: Simple Majority

#### OFFICER RECOMMENDATION (A&R 18/2014)

That Council:

- 1. Notes the Internal Audit Plan for 2014/15 (Attachment 1).
- 2. Notes the Internal Audit Assessment of Key Control Activities and Recommend Monitoring Activities (Attachments 2 and 3).
- 3. Notes the Audit Risk Register (Attachment 4).

4. Notes the following recommendations included in the Internal Audit Report for October 2014 (Attachment 5).

# Agendas and Minutes

- Signed minutes from June 2013 onwards need to be dated.
- Minutes from January 2013 to June 2014 should be bound and placed in the safe.
- All unbound minutes should be stored within the fire proof room for safe keeping.

# **Annual Report**

An independent review checklist is used to ensure the annual report is prepared in accordance with legislation for content, prepared and audited by the due date and submitted to the Department within 30 days of receipt of the auditor's report.

#### **Monthly Statements of Financial Activity**

- Consideration be given to reducing the financial information given to Council unless there is specific reason or need for the additional information. There is no statutory requirement to have a full set of statements for monthly reporting These are normally only required for annual financial statements such as:
  - o Statement of Comprehensive Income by Nature and Type
  - o Statement of Comprehensive Income by program
  - o Statement of Cash Flow
  - Statement of Financial Position by Nature and Type
  - Statement of Changes in Equity

### **Code of Conduct**

When the new Codes of Conduct are introduced it would be beneficial to conduct some internal training for elected members and employees in order to understand their new Codes.

#### **Creditors Payments**

Suppliers of goods and services will be advised that invoices will not be processed if there is no purchase order, and that the purchase order number must be on the invoice.

Staff to be provided with training on procurement and tendering to ensure they understand the proper processes to be followed.

#### **Succession Planning**

A succession plan is introduced and implemented to ensure key personnel have suitable staff to fill their roles in crucial areas within the organisation.

# Internal Audit Report October 2014 Financial Management Review

The objectives and scope of the internal audit is to provide the CEO and the Audit and Risk. Committee with surety that the financial and statutory functions of the Shire are being undertaken in accordance with the provisions of the Local Government Act 1995, associated regulations, the Australian Accounting Standards, any other legislation, and that key controls have operated effectively during the financial year.

Amendments in 2013 to the *Local Government (Audit) Regulations 1996*, now require all reports prepared for the CEO and the Audit and Risk Committee to examine the appropriateness of the local government's system in regard to risk management, internal control and legislative compliance.

The report covers areas examined in accordance with the Audit Plan and legislative requirements and includes:

- Agendas and Minutes
- Adopted Budget for 2014/2015
- Annual Report for 2012/2013
- Monthly Statements of Financial Activity for July 2014
- Code of Conduct
- Creditors Payments
- Succession Planning

#### Agendas and Minutes

#### Background

Council's agendas and minutes need to meet certain legislative requirements in relation to format, content, availability and to ensure the documents are properly prepared, maintained and stored in a safe and secure location.

#### Work Performed

Reviewed agendas and minutes for compliance with legislation with an emphasis on structure, content, and format. Ensured agendas had been certified before release, their availability to councillors and the general public, and whether these documents are stored in a secure and safe location.

#### Findings

Proper templates are used for agendas. Agendas reviewed have been structured for ease of reference and understanding, including an index that is properly cross referenced. Agenda reports include all information to be considered by Council. Copies of agendas are made available to the community and include the same detail as that provided to councillors except for confidential information.

Agendas are made available to councillors at least 72 hours prior to the meeting (except for special meetings) to provide sufficient time for councillors to prepare for the meeting. On complex issues briefing sessions are provided for councillors to explain a matter going before council for decision. Agendas are made available to the public at the same time as councillors are notified of their availability. Hard copies of agendas are made available for the general public at the main administration building and the four Shire libraries.

Officer's reports and recommendations are included in agendas. Agenda reports go through a stringent process of review and agenda settlement by Executive to ensure the content is objective and accurate before the information is signed off by the CEO and released.

The format of council minutes includes a comprehensive index and is cross-referenced. Minutes meet the legislative requirement of the *Local Government Act 1995* and the *Local Government (Administration) Regulations 1996.* The content of minutes includes the recording of:

- Attendance, apologies and leave of absence;
- Public question time;
- Financial Interest Disclosure;
- Absences of councillors and staff from the meeting;
- Details of each motion moved;
- Simple or absolute majority decision
- Recording of votes

Minutes are certified for confirmation but have not been dated for 2013/2014. This matter was also raised by the external auditor and still remains outstanding. Minutes from January 2013 remain unbound and are not placed in a secure location similar to the bound minutes which are placed in a locked safe within a fire proof room.

#### Risk

The risk of agenda and minutes not complying with legislation is considered low as the structure and content use standard formats and templates. The area of risk lies in not placing unbound minutes and agendas in the fireproof strongroom.

#### Management Response

Management is aware that minutes need to be dated and will have this matter addressed. The Corporate Information Coordinator will arrange to get the agendas and minutes bound when the loose leaf minutes have been dated. There will be no problem placing the unbound minutes in the fireproof strongroom.

#### Recommendation

- Signed minutes from June 2013 onwards need to be dated. This matter was picked up by the external auditors and still remains outstanding.
- 2. Minutes from January 2013 to June 2014 should be bound and placed in the safe.
- 3. All unbound minutes should be stored within the fire proof room for safe keeping.

#### Annual Budget for 2014/2015

#### Background

Legislation requires a local government to include specific information in its annual budget. The annual budget is to be adopted by the 31 August 2014 for the year ending 30 June 2015 and submitted to the Department within 30 days of its adoption.

#### Work Performed

Established whether the contents of the Statutory Annual Budget for 2014/2015 included:

- Statement of Comprehensive Income by Nature or Type (FMR 22(1)(a))
- Statement of Comprehensive Income by Program (FMR 22(1)(a))
- Statement of Cash Flow (FMR 22(1)(b))
- Rate Setting Statement (FMR 22(1)(d))
- Notes to and Forming Part of the Budget (AASB's and FMR's)
- Schedule of Fees and Charges (s 6.2 (4)(c))
- Budget was adopted by 31 August 2014.
- Copy of the Annual Budget was submitted within 30 days of its adoption with the Department of Local Government and Communities (the Department).

#### Findings

The Statutory Annual budget for 2014/2015 included all the key financial statements, notes and a schedule of fees and charges. The Statutory Annual Budget for 2014/2015 was adopted on 23 June 2014 (resolution number 96/2014) and submitted electronically to the Department of Local Government and Communities on the 3 July 2014 i.e. within 9 days.

The Statutory Annual Budget submitted on the 3 July 2014 inadvertently excluded the schedule of fees and charges. This was submitted separately to the Department on 23 October 2014.

Councillors were briefed on all aspects of the annual budget and were provided with rating scenarios. The carry forward of \$2,289,459 is less than 10% of rateable income permissible under section 6.34 of the Act to be carried forward.

#### Risk

The risk of not complying with legislative requirements in preparing the Statutory Annual Budget correctly and in compliance with legislation is considered low. Staff who prepare the Statutory Annual Budget understand the legislative requirements and have prepared a number of annual budgets in the prescribed format.

Management Response

Nil.

Recommendation

Nil.

#### Annual Report for 2012/2013

Background

Work Performed

Established whether the contents of the Annual Report for 2012/2013 included:

- A report from the Shire President (s 5.53(2) (a)).
- A report from the CEO (s 5.53(2) (b).
- Reference to adoption of Long Term Financial Plan
- The financial reports for the financial year ending 30 June 2013 (s 5.53(2) (f)).
- The number of employees earning more than \$100,000 (s 5.53(2) (g)).
- The auditor's report for the financial year (s 5.53(2) (h)).
- Public notice of the availability of the annual report (s 5.55).
- Copy of Annual Financial Report (annual report) sent to Department within 30 days
  of the receipt of the auditor's report LGFR 51(2).

- Completion within 6 months after the end of the financial year (s 5.54(1).
- Statement on the Record Keeping Plan (State Records Act)
- Freedom of Information Statement (Freedom of Information Act 1992)
- Employee Remuneration No of employees earning more than \$100,000 (5.53(2)(e))

#### Findings

The annual report for 2012/2013 complied with the requirements of the Local Government Act 1995 (the Act) and regulations to the Act with the exception of the public notice of availability of the annual report.

The annual report was accepted at the Ordinary Council Meeting on the 16 December 2013. The external audit report was received on the 2 December 2013 and the annual report was submitted electronically to the Department of Local Government and Communities on the 19 December 2013 well within 30 days of receipt of the external auditors report.

The external auditors report included an audit qualification on two matters of noncompliance. These related to the July 2012 monthly statement of financial activity not being presented to Council within 2 months, and the Annual Financial Report for year ended 30 June 2012 not being submitted to the Department within 30 days of receipt of the auditor's report.

#### Risk

The risk of the Shire of Kalamunda not complying with legislative requirements is considered. low.

#### Management Response

The matters raised by the external auditors will be addressed through a check list. Management made sure the Annual Report (which included a comprehensive set of Annual Financial Statements for year ended 30 June 2013) was submitted within the specified period as required by legislation within 30 days of receipt of the auditor's report, and monthly reports will be issued to Council within two months.

#### Recommendation

An independent review checklist is used to ensure the annual report is prepared in accordance with legislation for content, prepared and audited by the due date and submitted to the Department within 30 days of receipt of the auditor's report.

# Monthly Statements of Financial Activity

#### Work Performed

Examined the monthly statements of financial activity for July2014 for content and compliance with legislation. The minimum requirement under section 6.4 of the Act and under regulation 34 of the *Local Government (Financial Management) Regulations 1996* includes the following content:

- A Statement of Financial Activity each month reporting on the revenue and expenditure as set out in the annual budget for that month taking in the following detail –
  - annual budget estimates; and

	<ul> <li>budget estimates to the end of the month to which the statement relates; and</li> </ul>
	<ul> <li>actual amounts of expenditure, revenue and income to the end of the month</li> </ul>
	<ul> <li>to which the statement relates; and</li> <li>material variances between the comparable amounts of budget estimates to</li> </ul>
	the end of the month and actual amounts of expenditure, revenue and
	income; and net current assets at the end of the month to which the statement relates
•	An explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets; and
	An explanation of each of the material variances between the comparable amounts
	of actual to budget to the end of the month to which the statement relates; and
	Such other supporting information as is considered relevant. The information in a statement of financial activity may be shown –
	<ul> <li>According to nature and type classification; or</li> </ul>
	<ul> <li>By program; or</li> </ul>
	<ul> <li>By business unit.</li> </ul>
	A statement of Financial Activity and the accompanying documents are to be-
	<ul> <li>Presented at an ordinary meeting of the council within 2 months after the</li> </ul>
	<ul> <li>end of the month to which the statement relates; and</li> <li>Recorded in the minutes of the meeting at which it is presented.</li> </ul>
	<ul> <li>Recorded in the minutes of the meeting at which it is presented.</li> </ul>
•	Each financial year a local government is to adopt a variance to be used for reporting
	material variances.
Findin	as
set of month It repo	nire meets the minimum requirements for monthly financial reporting. It provides a full financial statements normally required for year-end annual financial reporting for its ly reporting. This includes a Statement of Financial Activity by Nature and Type. orts material variances of income and expenditure between budget estimates at the the month and actuals for that period.
	tatement of Financial Activity is presented within two months after the end of the to which the statement relates.
Risk	
	considered low. The corporate services team are aware of the statutory ements.
Manad	ement Response
	ement is currently reviewing Financial Report Requirements and will work with il to ensure that appropriate reporting occurs.

#### Recommendation

Consideration be given to reducing the financial information given to Council unless these is specific reason or need for the additional information. There is no statutory requirement to have a full set of statements. These are normally only required for annual financial statements and will include:

- Statement of Comprehensive Income by Nature and Type
- Statement of Comprehensive Income by Program
- Statement of Cash Flow
- Statement of Financial Position by Nature and Type
- Statement of Changes in Equity

# Code of Conduct

#### Background

A local government is to adopt a Code of Conduct under Section 5.103 of the *Local Government Act 1995* to be observed by elected members and committee members and staff. The Code addresses the broader issue of ethical responsibility and encourages transparency and accountability of individuals.

#### Work Performed

Established whether the Shire of Kalamunda has adopted a Code of Conduct and when this document was last reviewed. Ascertained whether a copy of the Code of conduct is given to all new staff and elected members on commencement.

Reviewed the current and draft Code of Conduct to ensure it included information required under Part 9 of the *Local Government (Administration) Regulations 1996,* pertaining to gifts and disclosure of interest.

#### Findings

The current Code of Conduct was adopted on the 19 May 2008. New draft codes, one for elected members and another for employees, have been prepared and sent to the Shires lawyers for comment and suggested changes. The lawyer has approved the draft version and made comment with some minor suggested changes.

New employees as part of their induction are made aware of the Code of Conduct as are newly elected members.

#### Risk

The Shire is compliant and risk considered low.

#### Management Response

The Manager Governance intends providing a new Code of Conduct for adoption in November 2014. The intent is for all staff to get a copy and understand their obligations.

#### Recommendation

When the new Code of Conduct is introduced it would be beneficial to conduct some internal training for elected members and employees in order to understand the new Code.

## **Creditors Payments**

#### Background

The Shire of Kalamunda improved and tightened up its procurement processes following two forensic audits by reviewing its purchasing policy and procedures and developing a new tender guideline. This has significantly improved its compliance in this area and provided a transparent process for the evaluation and awarding of tenders to suppliers.

#### Work Performed

Conducted a review of a sample of supplier's payments in August and September 2014 to ensure that procedures on procurement and tendering is still being carried out in accordance with the purchasing policy, procedures and guidelines.

#### Findings

In the main policies and procedures are being followed and payments are supported by purchase orders, invoices are being checked and approved. There were a few instances where purchase orders have not been raised, or were issued after the suppliers invoice. This is controlled by accounts payable who follow it up with the originator of the request. It was also noted in the case of audit services for grant acquittals there is a tendency not to raise a purchase requisition and purchase order due to the incumbent external auditor carrying out the audit. This is acceptable where it forms part of the external audit tender.

#### Management Response

Corporate Services will not process an invoice without an approved purchase order. If there is no purchase order or one is raised after the invoice, the originator of the request for goods and services is required to complete a form explaining why there is no purchase order, or the reason as to why one was raised after the invoice. In a few instances purchase requisitions were sent to the wrong person for instigation and approval of the purchase order. The computer system in these cases is unable to retrieve the document and sent it to the appropriate manager or person for approval of the purchase order.

#### Recommendation

Suppliers of goods and services advised that invoices will not be accepted and processed by the Shire unless there is a purchase order, and that the purchase order number is quoted on the invoice.

Staff to be provided with training on procurement and tendering to ensure they understand the proper processes to be followed.

## Succession Planning

#### Background

Employees are a major asset of the Shire and their skills, knowledge and experience built up over a number of year's plays an important role in the smooth operation of the organisation. In certain key areas this knowledge base needs to be passed on to others to build on the skill base within the shire especially if key members of the organisation are ill or should leave suddenly. This is especially true in areas such as Information Technology, Governance and Human Resources, Corporate Services and Planning.

The attraction and retention of staff can be effective if managed appropriately through a strategic approach. This may be through a formal process of internal training, documentation and giving staff the appropriate practical experience and empowerment to undertake a broader spectrum of work. Multiskilling has the added advantage of giving staff the skills to enhance their knowledge and improve their standing within the organisation.

There are a number of keys operational areas within the Shire that would benefit from planned succession planning should a number of key personnel leave, retire or take ill for a significant length of time. This would ensure minimal disruption to the organisation and allow for a smooth transition of work within the organisation.

#### Work Performed

While preparing the Risk Management Review, the issue of succession planning arose as a matter requiring consideration. The risk associated with loss of knowledge if key personnel leave an organisation can have a detrimental impact on an organisation.

In previous internal reports certain areas were identified should key personnel leave, their knowledge and skills leaving with them would have an impact on the smooth operations of the Shire if these skill had not been passed on to others.

Executive and the management team need to consider a strategic approach for the retention of staff and a formal succession planning approach in order to ensure there is minimal disruption to the organisation.

#### Findings

There are a number of significant areas within the organisation especially in Human Resources, Information Technology (IT), Corporate Services and Planning where key personnel in these areas play a significant role in keeping the organisation functioning smoothly. Should any of these key personnel leave of take ill there is no person within the area to fill this role in the short to medium term or to replace them with similar skill sets as staff working under these key personnel have not been given the skills or have the knowledge to undertake the work.

#### Risk

The loss of key employees within the organisation will leave a vacuum of knowledge and skill that may be difficult to replace in the short to medium term. This may affect the smooth operation of the Shire in a number of key area.

#### Management Response

In one or two areas, steps are being taken to address this matter. This is especially true in the case of Human Resources. However in some areas especially IT there is limited current capacity available to reduce the risk of reductions in service delivery in the event of the loss of key personnel.

#### Recommendation

A succession plan is introduced and implemented to ensure key personnel have suitable staff to fill their roles in key areas within the organisation until a replacement can be found or the position is advertised.

1. To review the Risk Management Report (Attachment 1) and recommend the results of the review to Council.

## BACKGROUND

- 2. Following amendments to the *Local Government (Audit) Regulations 1996 in February 2013,* the Chief Executive Officer (CEO) is required to carry out at least a biennial review of:
  - Legislative Compliance,
  - Internal Control, and
  - Risk Management

and present the results of the review to the Audit and Risk Committee for their consideration. The Audit and Risk Committee is to consider the CEO's review and report the results of the review to Council.

3. The first review and report is to be completed by the CEO, reviewed by the Audit and Risk Committee and with the results of the review reported to Council by the 31 December 2014.

## DETAILS

- 4. The Shire of Kalamunda provides an effective operating environment by ensuring it has the necessary resources, expertise and skills to deliver services to the community and discharge its obligations under law. This is achieved through its corporate governance framework which enhances the organisational performance, improves the internal control environment and manages and mitigates risk while ensuring that its legal and ethical obligations are met.
- 5. There are a number of strengths in the governance and organisational management practices of the Shire which ensures it has internal control

processes designed to assist the Shire in addressing risk of fraud and error, and improving reliability of financial reporting and compliance with legislation and policies. These strengths include:

- A Governance Framework
- An Integrated Planning and Reporting Framework adopted by council and commended by the Department of Local Government and Communities.
- A high level of reporting and information content in Council Agendas and Minutes which includes risk management considerations.
- A Business Continuity Policy and Plan.
- High level of reporting information and content in the Annual Report.
- A Risk Management Policy and an Integrated Risk Management Plan.
- An Audit Risk Register to address and monitor identifiable risks.
- A Business Continuity Plan
- Regular review of existing policies and adopting new policies.
- A Code of Conduct
- Internal auditor who provides regular reports to the Audit and Risk Committee
- A Record Keeping Plan
  - Maintaining Statutory Registers including:
    - o A Gift Register
    - Financial Interest Register
    - o Tender Register
    - o Delegated Authority Register
    - Other statutory and good practice documents

The weaknesses:

- Complete documentation of operational procedures for rates and payroll.
- Comprehensive induction training required for new employees.
- Training required in procurement and rates.

Failure to provide comprehensive training for new employees	Likely	Minor	High	Suitable training will be organised

## OFFICER COMMENT

- 15. The Risk Management Review has confirmed that the overall effectiveness of the Financial Management Systems, governance practices and procedures relating to legislative compliance, internal control and risk management are sound. The review has identified some improvement opportunities that will be implemented to further improve our operating environment.
- 16. The Shire has developed a Risk Management Policy (Attachment 2), Risk Management Procedure (Attachment 3) and Integrated Risk Management Plan (Attachment 4) in order to provide a consistent approach to effectively manage and monitor risks within the organisation. In addition, a Crisis & Business Continuity Plan (Attachment 5) has also been established that will enable the Shire to implement a planned response to major incidents that have the potential to significantly impact the Shire's ability to deliver its services and functions in a timely manner.
- 17. The Shire has recently undertaken a Strategic Risk Assessment to identify and assess those risks that are most likely to impact the Shire's capacity to achieve its strategic objectives. These risks are reported in the Strategic Risk Register and will be reported and reviewed by Executive and the Audit and Risk Management Committee on a quarterly basis.

# Voting Requirements: Simple Majority

## **OFFICER RECOMMENDATION (A&R 19/2014)**

That Council:

- 1. Receives the findings and recommendations contained in the Internal Auditors Risk Management Review (Attachment 1).
- 2. Endorses the Risk Management Policy (Attachment 2), Risk Management Procedure (Attachment 3) and the Integrated Risk Management Plan (Attachment 4).
- 3. Notes the Crisis & Business Continuity Management Plan (Attachment 5).
- 4. Notes the Strategic Risk Register (Attachment 6).

Attachment 1

Shire of Kalamunda Risk Management Review 2014

October 2014

Amendments to the Local Government (Audit) Regulations 1996 (Regulation 17) effective from the 9 February 2013 requires the Chief Executive Officer (CEO) of a local government to carry out at least a biennial review of legislative compliance, internal control and risk management, and present the results of the review to the Audit and Risk Committee for their consideration. The Audit and Risk Committee is to consider the CEO's review and report the results of the review to Council.

The first review and report is to be completed by the CEO, reviewed by the Audit and Risk Committee and reported to Council by the 31 December 2014.

There are many similarities between the Risk Management Review and the Financial Management Review. The Risk Management Review is more encompassing than the Financial Management Review and includes specific items for inclusion in the report as required by the Local Government Operational Guideline Number 09 – "Audit in Local Government" issued by the Department of Local Government and Communities and Section 7 – "Internal Control Framework" of the Western Australian Local Government Accounting Manual.

# Legislative Compliance

Audit and Risk committee practices in regard to monitoring compliance programs include:

Monitoring compliance with legislation and regulations.

Executive and the management team receive and read regular publications issued by the Department of Local Government and Communities and professional associations to keep themselves abreast of legislative changes. This includes reference to circulars, guidelines, the Local Government Accounting Manual and changes to Australian Accounting Standards.

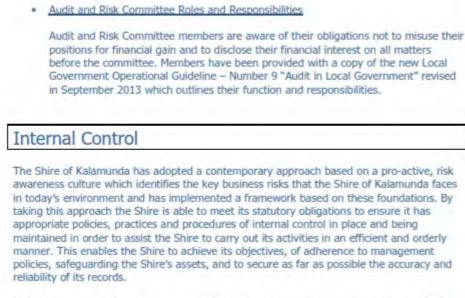

The Manager of Governance, Manager Financial Services and Internal Auditor have a good working knowledge of the Local Government Act 1995 and associated regulations with many years of experience working in local government and on local government matters.

To ensure there is proper compliance with legislation a review is undertaken every two years of statutory documents and good practice documentation to ensure the information is current and regularly reviewed (refer Appendix 10).

<u>Reviewing whether the local government has procedures for it to receive, retain and treat complaints, including confidential and anonymous employee complaints.</u>

The Shire has developed a Complaints Handling Policy and Procedure. All complaints are required to be registered in a Complaints Data Base in Synergy, acknowledged within 5 working days and wherever possible resolved within 10 working days. Where a complainant requests their identity and complaint details to remain

confidential; the Shire will ensure that disclosure of any personal information to third parties is not made. Financial Reporting and Identifying Adverse Trends Monthly Statements of Financial Activity identify significant adverse trends. At least one budget review plus a Statutory Budget Review is undertaken each financial year to ensure adverse trends are identified and budget amendments approved by Council. Financial disclosure and significant compliance issues, All disclosures in management financial reports are reviewed by the management team and executive to ensure the disclosures comply with the Local Government Act 1995, Local Government Financial Management Regulations 1996 and accounting standards before they are presented to Council. Effects of significant changes such as the recognition of assets at fair value, is reviewed by the financial management team and the external auditors to ensure the recognition and disclosure complies with legislative requirements. Audit Planning and Independence The Shire has developed a risk based internal audit plan. Internal and external auditors have considered conflicts of interest and independence very seriously as part of their own ethics and considered the ethics of others in their audit plans. The external auditors as part of their rigorous quality control and client acceptance procedures have ensured they are independent. Managing Compliance and Ethics The internal auditor ensures the financial interest register, disclosure of gifts register and other statutory registers are being maintained by the Manager of Governance. Councillors and staff are aware of their public duty and private interests. Councillors and staff with delegated authority are required to submit primary and annual returns each year. Councillors and staff have been instructed on how to complete their returns ensure all returns are completed correctly and in full with spaces not left blank. Understanding Local Government Compliance and Regulatory Framework The internal auditor reviews regular updates of publications issued by the Department of Local Government and Communities for changes to legislative requirements and ensures the changes are implemented. This includes changes to accounting standards and new legislation implemented by the State and Commonwealth. The external auditor discusses new legislative requirements with the Manager Financial Services and the Internal Auditor to ensure changes have been properly implemented. 3

Maintaining an effective and transparent internal control environment is vital to enable the Shire to operate effectively. Internal audit review activities have been conducted in the following areas:

Integrity and ethics of the organisation

The Shire adopted a Code of Conduct on the 19 May 2008 as required by Section 5.103 of the *Local Government Act 1995* to provide guidance to Council members, committee members and employees of the Shire in regard to their duties and responsibilities, and to outline the standard of conduct expected of them. The draft document has been approved by the Shire's lawyers and will be going to the Audit and Risk Committee in November 2014.

The Code of Conduct is on the Shire's intranet and as part of employees induction training provided with a copy of the Code.

The guiding principles of the Code of Conduct in Shire of Kalamunda employees, council members and committee members fulfilling their duties is to:

- Act with reasonable care and diligence;
- Act with honesty and integrity;
- Act lawfully;
- Avoid damage to the reputation of the local government;
- Be open and accountable to the public;
- Base decisions or advice on relevant and factually correct information;

4

- Treat others with respect and fairness; and
- Not be impaired by mind affecting substances.

48

The Code of Conduct includes the use of:

- Confidential Information;
- Intellectual Property;
- Information to be Provided to Council Members;
- Improper and Undue Influence;
- Use of Local Government Resources;
- Role of Council Members and Employees;
- Disclosure of Interest;
- Gifts;
- Personal Behaviour;
- Corporate Obligations;
- Internal and External Communication;

Complaints Handling

There is a complaints handling procedure with all complaints registered and actioned by appropriate business units in a timely fashion. A register is maintained of all complaints logged onto the computer system and actioned. Management receive regular reports on the number of complaints received and actioned each month.

Policies and delegated authority.

A register is maintained of all Council Policies and Procedures. Policies and procedures are in the process of being reviewed and updated. There is also a delegations register that is kept up to date and reviewed regularly.

Levels of responsibility and authority.

There is a documented corporate structure for the organisation headed by 12 Councillors the CEO, three directors and nine managers with delegated authority. Powers are delegated in writing and the delegations register is kept up to date.

Audit practices.

The Shire has an Audit and Risk Committee that meets on a regular basis to review the internal and external auditor's reports and recommendations before they are presented to Council. The Audit and Risk Committee complies with the appointment, function and responsibilities under the *Local Government Act 1995* and the *Local Government (Audit) Regulations 1996*.

The internal auditor regularly reviews and tests the financial management systems of the Shire and prepares regular reports of his findings, management's comments and recommendations to the Audit and Risk Committee on the appropriateness and effectiveness of the systems in relation to risk management, internal control and legislative compliance. The review of financial management systems during the past two financial years ending 30 June 2013 and 2014 included:

- Cash Floats and Petty Cash.
- Rates and Rate Rebates, Concessions, Discount and Interest.
- Assets- Fixed Assets.
- Records.

_	Evenan	ses -	Date	IIom
	EXUE	505-	rav	TOIL

- Liabilities Employee Provisions.
- Bank Reconciliation.
- Home and Community Care (HACC).
- Cell 9 Contributions Calculations and Financial Statements Trust Funds.
- Planning for the Adoption of Fair Value Accounting.
- Tendering.
- Procurement and Accounts Payable.
- Investments.
- FBT on Motor Vehicles.
- Contributions by Lessees/Asset Additions.
- Trust Cell 9 GST Payable on Reimbursements to Education Department.
- Expenses Corporate Credit Card Policy.
- Review of Compliance Audit Return 2013.
- Mail Remittances and Cash Receipts.
- Fees and Charges.
- Budget Reviews.
- Monthly Statement of Financial Activity.
- Long Term Financial Plan 2023.
- Annual Budget 2012/2013.

During the past two financial years there have been no significant non-compliance issues identified.

The audit findings requiring attention have either been actioned or entered in an Audit Risk Register with an estimated date for the items to be actioned (Refer Appendix 9).

Information systems and access.

There are proper controls in place restricting access to computer information systems and records. In October 2009 the State Records Commission approved the Recordkeeping Plan on the control and storage of information held by the Shire. This plan has been reviewed and updated. It was approved for submission by Council in September 2014, and submitted to the State Records Commission on the 26th September 2014.

The Shire uses a fully integrated local government computer financial accounting system (Synergy) for its budgeting, financial reporting and records management. The system provides restricted access to various levels of information by employees for the protection and integrity of data. Appropriate access controls are operating effectively.

Managements operating style.

Management provides professional advice and well researched agenda reports for councillors. These reports are prepared by management, reviewed by the Manager for Governance and examined by the Executive team made up of the CEO, Directors and Manager of Governance before they are accepted and circulated to Councillors. Management conveys its reports in a compliant and transparent manner with an officer's recommendation based on all the information provided.

There are proper controls and procedures in place in Human Resources for the control and protection of employee's confidential information. There are policies and procedures for Occupational Health and Safety, Staff Training and other operational matters affecting employees. Management practices includes a regular review of leave entitlements to ensure this is being regularly taken by all employees and does not exceed certain levels.

 <u>Reviewing the effectiveness of the local government's internal control systems with</u> management and the internal and external auditors.

A review of Key Control Activities and Recommended Monitoring Activities were conducted by the internal auditor and the findings summarised in the following attachments presented to the Audit and Risk Committee:

- Key Control Activities (Refer Appendix 7)
- Recommended Monitoring Activities (Refer Appendix 8)

The key control and recommended monitoring activities will now form part of the internal audit plan for 2014/2015 and for future years to be reported regularly to the Audit and Risk Committee.

## **Risk Management**

Risk Management in Local Government

Risk management in local government is about the systematic identification, analysis, evaluation, control and monitoring of risk within the organisation. While risk cannot be totally eliminated, the Shire is strongly committed towards establishing robust structures, processes and controls that are cost effective in reducing the risk profile, thereby protecting the interests of the Shire, the public and other key stakeholders. Risk management is an integral part of the management style of the Shire of Kalamunda embedded in the culture and business processes, and is applied at all levels and functions within the organisation.

The CEO, Directors and Managers are primarily responsible for managing strategic and operational risk on a day to day basis which forms a critical first line of defence for Council. The powers are delegated in writing to the CEO by Council and by the CEO to staff. Management establishes an appropriate control environment which includes the relevant financial internal controls for addressing the underlying accounting, financial systems and processes along with legislative requirements.

The Shire's Governance framework establishes the policies and procedures which govern organisational activities and processes. This is established through monitoring activities such as self-assessments, regular reviews, management evaluation and process monitoring and improvement. This element has been strengthened following two forensic audits into the Shire resulting in a review of current policies, the introduction of new policies and procedures, and a tightening up of processes particularly in procurement and tendering.

The internal audit function is charged with the responsibility to perform an objective assessment on the evaluation of performance of internal control activities and business processes. The internal audit includes an evaluation of key operational and financial internal controls, an assessment of risk, and compliance with legislation. Internal audit findings, management responses and recommendations are reported to the CEO and the Audit and Risk Committee.

The external audit function is independent and provides management with an audit opinion on whether the Shire's accounts are properly kept, and whether its financial report is presented fairly in accordance with the requirements of the Local Government Act 1995, Local Government (Financial Management) Regulations 1996 (as amended) and other professional reporting requirements. The external auditor conducts an interim audit on financial processes and procedures to substantiate the accuracy of information reported in the annual financial statements, and issues an interim management report with management's responses, and a final audit report on the annual financial statements. These reports are presented to the Audit and Risk Committee for consideration. During the past two financial years the interim management reports issued by the external auditors have provided minor recommendations to improve procedural matters which have or are being addressed by management. The Audit Report on the annual financial statements for year ending 30 June 2013 included a qualification on a matter of procedural noncompliance that has been addressed. The Interim Audit Report on the Financial Statements for the year ending 30 June 2014 was presented to the Audit and Risk Committee with items being addressed by management. The final report on the Financial Statements has yet to be issued.

Providing an Effective Risk Management System

Council noted and adopted a Risk Management Policy in March 2012 to establish a consistent, efficient and effective assessment of risk within the organisation (Refer Appendix 1) Risk Management Procedures were prepared on the application of the policy (Refer Appendix 2).

Council adopted a Risk Management Plan in May 2014 (Refer Appendix 3). The document provides the necessary foundation and organisational arrangements and framework for managing risk. The document describes how the Shire will manage its strategic, operational and project risks associated with governance, management and operations of the Shire. Risks identified in the plan are to be treated using the standard AS/NZS/ISO 31000:2009 Risk Management – Principles and Guidelines.

The risk management processes are an integral part of management, embedded in the culture and tailored to the business processes of the Shire. It applies to all levels and functions within the organisation and helps stakeholders understand the basis by which decisions are made and enhances the Shire's capacity in achieving its objectives.

All risks identified that have an extreme or a high rating are included in an Audit Risk register for actioning and monitoring by management and executive (refer Appendix 9). These risks are regularly reviewed and reported to the Audit and Risk Committee.

The Shire has developed a Business Continuity Framework comprised of a Business Continuity Policy, Procedures and Business Continuity Plan. The Framework enables the Shire to respond to major incidents that have the potential to significantly impact on the ability of the Shire to deliver its key business activities and primary services. A major incident may also result in casualties, property damage, business interruption, financial loss and damage to the Shire's reputation and image.

The plan incorporates the prevention, preparedness, response and recovery framework which aims to return the Shire to a timely resumption of business activity before the business interruption critically impacts service delivery.

Ancillary to the Business Continuity Plan is an IT Disaster Recovery Plan. The primary focus of this document is to provide a plan to respond to a disaster that destroys or severely cripples the Shires central computer system operated by the Technology and Corporate Support Group. The intent being to restore operations as quickly as possible with the latest and most up-to-date data available.

#### Managing and Assessing Risk

Material risks require prompt action and the implementation of or compensating procedures to help reduce or mitigate risk. These controls are assessed to establish whether there are available options to remove the source of the risk, change the likelihood of a risk reoccurring, share the risk with insurers or ensure it is continually monitored. A risk register is in place to manage, monitor, review and update material risks.

Strategic level risks are controlled by Council and/ or the Executive team and are associated with achieving the long term objectives of the Shire. Operational levels of risk are risks associated with developing the operational plans, functions or activities of the Shire and are owned and managed by the relevant business unit managers. Project risks are managed by personnel associated with the project and are associated with the delivery of projects on time and within budget.

Following the identification of risks, analysis of the risk in terms of for likelihood and the consequences is carried out. From this analysis the level of inherent risk can be determined. The inherent risk represents the level of risk associated with a particular issue without considering any controls that might be in place. The residual risk represents the level of risk remaining after controls have been successfully implemented and assessed for their effectiveness.

A risk matrix is used for quantification of likelihood and consequences as provided in the Integrated Risk Management Plan.

Items identified with an unacceptable level of risk are entered in an Audit Risk Register for regular review to ensure the matters identified are being regularly monitored or addressed. 52

	Iternal auditor undertakes regular reviews of business practices and internal of to ensure key controls are in place and operating effectively.
	eview undertaken ensures that there are proper segregation of duties,
	nented procedures, staff with the necessary skills, experience and qualification
to uno	dertake the task and processes. The review of IT controls ensures information s is properly managed.
compl contro contro	ar internal audit reports are issued to the Audit and Risk Committee on letion of internal audit reviews. These reports identify breakdowns in internal ol, the nature, impact and potential risk to the Shire. Breakdowns in internal ol, likelihood of reoccurrence, their potential consequences, management's nses and actions or strategies to address risk are evaluated and reported.
	gement includes all identified risks in an Audit Risk Register (Refer to Appendix actioning, monitoring and regular reporting.

All agendas contain a risk assessment as part of an officer's recommendation. Reports are often backed by independent advice from consultants and where required, legal advice is also obtained for transactions that carry more than an acceptable level of risk.

Further controls include regular budget reviews in order to identify unusual types of transactions and major variances of income and expenditure. This is in addition to a statutory budget review of all line item of income and expenditure with all significant variances properly investigated. Budget reviews and amendments are approved and adopted by Council.

Monthly Statements of Financial Activity are prepared in accordance with legislative requirements and presented to Council. Significant variances in income and expenditure in these monthly statements are identified and included in the monthly report to Council.

There are controls in place for payment of accounts to ensure supplier's payments do not exceed the tender threshold. A list of all payments are presented to Council each month with the name of the payee, amount and nature of the payment.

 Assessing procurement compliance to ensure probity and probity and transparency of policies and procedures/processes and whether these are being applied.

As referred to before, policies and procedures in relation to procurement and tendering have been reviewed and strengthened following two Forensic Audits. New procedures on purchases and tendering were introduced that conform with legislative requirements to ensure tenders are properly advertised, recorded and evaluated in accordance with the Local Government Act 1995 and the Local Government (Functions and General) Regulations 1996. The internal auditor has conducted regular tests on processes in relation to procurement and tendering to ensure policies and procedures have been followed and processes comply with legislation. Management has centralised the procurement process within Corporate Services to strengthen internal control and compliance with legislation.

All policies are being reviewed and new policies introduced where required. All Council approved policies are listed on the Shires web site.

Managing changes to the changes in the local government's control environment.

The Audit and Risk Committee meets regularly (normally every quarter) to review reports issued by the internal and external auditors and make its recommendation to Council.

Detailed planning has been carried out to ensure the Shire complies with the introduction of Fair Value Asset Accounting.

Managing Fraud and Misconduct Risk

Following the completion of forensic audits in 2012 and 2013, a significant review of existing policies was undertaken. Additionally, new policies were established including:

- Payment and Reimbursement of Expenses Policy;
- Travel Policy; and
- Whistle-blower (Public Interest Disclosure) Policy.

The Whistle-blower (Public Interest Disclosure) Policy and procedures was prepared to encourage employees, elected members, contractors and consultants to report unlawful and unethical, or undesirable conduct that they genuinely believe has occurred or been committed by a person or persons in breach of the Shire of Kalamunda's Code of Conduct, policies or the law.

The internal auditor conducts regular risk assessments of financial management systems and procedures, to ensure internal controls are in place and operating effectively, and that there is compliance with legislation and policies. Regular internal audit reports with management's responses and recommendations are presented to the Audit and Risk Committee. This has strengthened the corporate governance processes and the internal control environment.

# Conclusion

The Shire of Kalamunda provides an effective operating environment which ensures it has the necessary resources, skills, and expertise to deliver services to the community and discharge its obligations under law. Its corporate governance practices has enhanced the organisational performance, identified, managed and minimised risk, and ensured the organisation is meeting its legal and ethical obligations, assisting in preventing and detecting dishonest or unethical behaviour.

Whilst a number of areas have been identified for improvement, the overall effectiveness of the financial management systems and procedures of the Shire of Kalamunda in relation to legislative requirements, internal control and risk management remains sound and appropriate for the current level of operations and meet the requirements of regulation 17 of the Local Government (Audit) Regulations 1996. The strengths and weaknesses of the risk assessment review of legislative compliance, internal control is summarised as follows:

#### Strengths

#### In Governance and Organisational Management

- The Shire has adopted a governance framework which provides guidance and strategies for the development of critical operational and compliance documentation.
- A high level of reporting and information content in Agendas and Minutes.
- A high standard of reporting information and content in the Annual Report.
- Adoption of a Risk Management Policy and Risk Management Plan.
- Developed a Risk Register for addressing and monitoring risks.
- Risk Management integrated into all levels of planning and reporting to Council.
   A robust disaster recovery arrangement in place for IT systems and electronic
- A robust disaster recovery arrangement in place for 11 systems and electronic records
- Council policies and procedures reviewed, updated and new policies adopted by Council.

- Content and structure of Agendas and Minutes includes a comprehensive index which meets the requirements of the Act and includes all information to be considered by Council, with a comprehensive officer's report and recommendation. Each individual report also tests risk management considerations.
- There is an Effective Business Continuity Plan in place.
- Regular internal audit reports prepared and issued to the Audit and Risk Committee identify areas requiring attention in order to strengthen the internal control structure to improve operations and mitigate potential exposure to risk.
- Management are addressing the internal control deficiencies and have introduced an audit risk register to record all risks and assign these risks to responsible managers for regular review.
- Councillors and staff understand their obligations under the Code of Conduct relating to corruption and acceptance of gifts by disclosing all gifts in the gift register.
- Regular Audit and Risk Committee Meetings are held to review internal and external auditor's reports, new policies and other information and provide its recommendations to Council.
- A detailed customer service policy and customer service complaints handling process
- A well-managed and operated records keeping system.

#### Weaknesses / Best Practice

- Proper documentation of operational procedures within a number of areas to enable new employees to understand systems especially in the rates and payroll areas.
- Comprehensive induction training required for new employees.
- There is limited workforce succession planning.
- Training at present is unstructured although steps are being taken to address this matter.

### Strengths

#### **In Financial Management**

- Adopting and implementing the Integrated Planning and Reporting Framework which included the Strategic Community Plan and Corporate Business Plan, Asset Management and Long Term Financial Plans and submitting these documents to the Department of Local Government and Communities.
- High level of reporting information and content in the Annual Budget.
- High level of reporting information and content in the Annual Financial Statements.
- Phasing in of assets at Fair Value in accordance with legislative requirements.
- Meeting majority of the preferred benchmarks for Key Performance Indicators (KPI's) for long term financial sustainability.
- Improvements in the Shire's liquidity and cash backed reserves.
- Undertaking more than one budget review during the financial year.
- Preparing regular internal audit reports for the Audit and Risk Committee on financial, operational and procedural matters on internal control, risk and legislative compliance.

- Lack of good procedural documentation for staff working in certain areas to prevent errors being made in data entry. This has been placed on the audit risk register for attention by management
- Training required for new and existing employees especially in the areas of procurement, tendering and FBT. Management are taking steps to address this matter.

#### Attachment 3

## Xx: Risk Management Procedure

#### **Council Policy**

**Relevant Council Policy** 

Risk Management Policy

#### Purpose

To provide guidance on the application of the risk management procedure in accordance with the Risk Management Plan and Risk Management Policy to provide a consistent approach to effectively manage and monitor risks within the organisation.

#### Application

To apply risk management at all levels and functions of the organisation as part of its practices and procedures using the Australian/New Zealand ISO 31000:2009 Risk Management Standard (AS/NZS ISO 31000:2009).

## Objectives

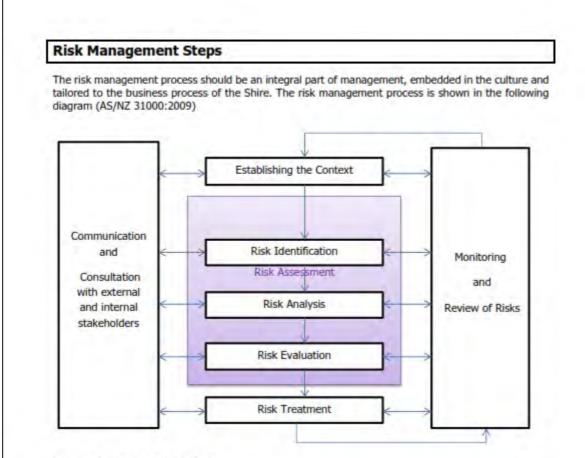

To establish roles and responsibilities for managing risk within the organisation from a:

- strategic;
- operational; and
- project level

On a Strategic Level to achieve the objectives of the Strategic Community Plan and deliver on the Corporate Business Plan Objectives

On an Operational Level delivery of the Long Term Financial Plan, the Asset Management Plan, the Workforce Plan, the Annual Budget and Annual Report by Business Unit Managers.

On a Project Level delivery of risks associated with developing and delivering projects successfully during each stage of the project to final completion by Business Unit Managers in control of individual projects.

#### Communication and Consultation

Communication and consultation with external and internal stakeholders should take place throughout the risk management process. Therefore plans for communication and consultation should be developed at an early stage. These should address issues relating to the risk itself, its causes, its consequences (if known), and the measures being taken to treat or address them.

It is an essential element of risk management as it helps stakeholders understand the basis on which decisions are made, and the reasoning behind particular actions.

Transparent clear communications throughout the process will help meet the obligations on local government for accountability and transparency.

Consulting with all stakeholders using a planned consultation process helps identify and address risks through improved understanding and backed by proper documentation.

#### Establishing the Context

By establishing the context, the Shire articulates its objectives, defines the external and internal parameters to be taken into account when managing risk, and sets the scope and risk criteria for the remaining process. While many of these parameters are similar to those considered in the design of the risk management framework, when establishing the context for the risk management process, they need to be considered in greater detail and particularly how they relate to the scope of the particular risk management process.

#### Risk Assessment

Risk assessment is the overall process of risk identification, risk analysis and risk evaluation. It includes the following components:

- Establishing the context
- Identification of the risk
- · Analysing the level of risk and establishing whether it meets acceptable levels of tolerance
- Evaluating the risk in relation to the benefits it may provide
- · Consideration on whether there are ways to mitigate risk and the treatment of risk.

### **Risk Identification**

The Shire should identify sources of risk, areas of impact, events including changes in circumstances) and their causes and their potential consequences. The aim of this step is to generate a comprehensive list of risks based on those events that might create, enhance, prevent, degrade, accelerate or delay the achievements of those objectives. It is also important to identify any risks associated with not pursuing an opportunity.

The techniques used to identify risks associated with the development, transition and operation of the SOK include:

Activity	Detail / timeframe	Participants
Strategic risk assessment as part of the decision making process	In planning processes and phased implementation timelines	Council, Executive and key stakeholders
Corporate risk analysis	In annual planning cycle and at key review points	Council, Executive and key stakeholders
Operational risk analysis	Agenda item on all regular Council, project, committee and staff team meetings	All relevant Elected Members and Officers
Internal and external Emergency management	As required	Executive, relevant staff and LEMC
Business Continuity	Ongoing with regular review	All relevant Elected Members and Staff
Review of current risk treatments and assessment of future organisational and project plans in relation to risk	Annually and as relevant	All relevant Elected Members and Officers
Incident / Issue reporting, investigation and review	When reported and monthly	All relevant staff and stakeholders
Feedback processes	Ongoing	All relevant staff and key stakeholders

#### Risk Analysis

Risk analysis involves developing an understanding of risk. Risk analysis provides an input to risk evaluation and the decision on whether risks need to be treated, and on the most appropriate risk treatment strategies and methods. Risk analysis can also provide an input into making decisions where choices must be made and the options involve different types and levels of risk.

#### **Risk Evaluation**

The purpose of risk evaluation is to assist in making decisions, based on the outcomes of risk analysis, about which risks need treatment and the priority for treatment implementation.

Risk evaluation involves comparing the level of risk found during the analysis process with risk criteria established when the context was considered. Based on this comparison, the need for treatment can be considered.

The Shire has a low appetite for risks relating to:

- · health, safety and the wellbeing of staff and the community
- administration of finances and assets
- legislative compliance

There is a potentially higher appetite where benefits created by innovative concepts and ideas outweigh the risks. Benefits may include improved service delivery, and/ or increases in efficiency and effectiveness of the shire's operations.

The following chart provides examples to assist in the evaluation process in establishing whether risks are considered to be:

- insignificant immaterial and less than a \$10,000 financial impact, a minor breach of policy and will result in no health, safety or reputational impacts of the shire
- minor- financial effect of between \$ 10,000 and \$100,000, may result in minor injury and reputation but can be contained within the shire
- <u>maior</u> financial impact of between \$100,000 and \$500,000, may result in serious injury of individuals and may result in adverse finding on reputation
- <u>critical</u> financial impact of between \$500,000 and \$1 million resulting in significant injuries, breach of reputation of the shire, inability to deliver on deliverables
- <u>extreme</u> financial impact greater than \$ 1 million, resulting in death and permanent disabilities
  of individuals, breach in legislation resulting in external investigations and serious injury to the
  reputation of the shire

Likelihood /Consequences

LEVEL	DESCRIPTION	EXAMPLES	FREQUENCY
A	Almost Certain	Expected to occur in most circumstances	More than once per year
8	Likely	Will probably occur in most circumstances	At least once per year
c	Possible	Should occur at some time	At least once in three years.
D	Unlikely	Could occur at some time	At least once in ten years
E	Rare	May occur, only in exceptional circumstances	Less than once in fifteen years.

some level of explanation should be provided for the deficiency in the control activity. In addition where a control activity has been given an effective rating of 3 or below by the checking officer, an action plan should be recorded. Further to this, where a control has not been implemented, an action plan should be recorded to implement the control, or a strong rational provided for its omission.

Once the control activity has been evaluated, an accurate assessment of the actual residual risk can be determined.

#### Step 4 Treat risks and control activities

The final step is to treat risks and control activities with the implementation of any action plans to correct deficiencies. It is also appropriate to identify the further controls that should be implemented to ensure the risks are being managed at an acceptable level. Consistent with the accountability principles of a robust corporate governance environment, each additional control to be implemented should be assigned to a nominated responsible officer.

### **Roles/Responsibilities**

Risk Management is an integral part of the management process of the Shire of Kalamunda embedded in the culture and business processes of the Shire, and applied to all levels and functions of the organisation.

#### **CEO and Directors (Executive)**

The CEO and Directors are responsible for managing the strategic risks of the shire and ensuring procedures for the management and review of this risk. The Executive team is also responsible for the corporate functions by establishing the policies and procedures which govern organisational activities and processes.

#### **Business Unit Managers**

Business unit managers are primarily responsible for managing operational risk on a day by day basis which forms a critical first line of defence for Council. Management achieves this by establishing an appropriate internal control environment which includes the relevant financial internal controls addressing the underlying accounting assertions and an assessment of risk for all reports it presents to Council.

#### **Internal Audit**

Internal audit is charged with the responsibility to perform an objective assessment of control activities and business processes. This includes an evaluation of internal controls and business processes, assessment of risk and compliance with legislation and accounting principles. The internal auditor provides his findings and recommendations to the CEO and Audit and Risk Committee.

#### **External Audit**

The external auditor is required to form an opinion on whether the Shire's accounts are properly kept and whether its financial report is presented fairly in accordance with the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996 (as amended)* and other professional reporting requirements. The external auditor issues an interim management report and a final report on the Annual financial statements to the Audit and Risk Committee

#### Audit/Risk Committee

The Audit and Risk Committee has a role governed by the *Local Government Act 1995, Local Government (Audit) Regulations 1996.* This role is to provide guidance and assistance to the local government as to the carrying out of its functions in relation to audits, the appointment of external auditors, review reports given to it by the CEO, review the annual Compliance Audit Return and consider the CEO's biennial reviews of the appropriateness and effectiveness of the local

government's systems and procedures in regard to risk management, internal control and legislative compliance.

### Monitoring/Review

#### **Reporting System**

Quarterly Review

Strategic and risks with a major or extreme level of risk are to be reviewed each quarter by Executive and reported to the Audit and Risk Committee.

Operational risks included in the Audit Risk Register are to be reviewed by Business Unit Managers every quarter and the outcomes reported to SMG.

Project risks identified for all major projects are to be reviewed by the Business Unit Managers every quarter and the outcomes reported to SMG.

Biennial Review

A biennial review of legislative compliance, internal control and risk management is a requirement under Regulation 17 of the *Local Government (Audit) Regulations 1996.* The results of the review is to be presented to Audit and Risk Committee for consideration and the results of the review reported to Council. The first review since the introduction of the amendments to the audit regulations on the 9 February 2013 is to be completed and reported to Council by the 31 December 2014.

The biennial review is more encompassing than the four yearly financial management review and includes items specified in Local Government Operational Guideline 09 – "Audit in Local Government" and covered under Section 7 – "Internal Control Framework" of the Western Australian Local Government Accounting Manual. Both of these documents are issued by the Department of Local Government and Communities.

That Key Control Activities and Recommended Monitoring Activities under Section 7 – "Internal Control Framework" of the Western Australian Local Government Accounting Manual will be form part of the Biennial Review.

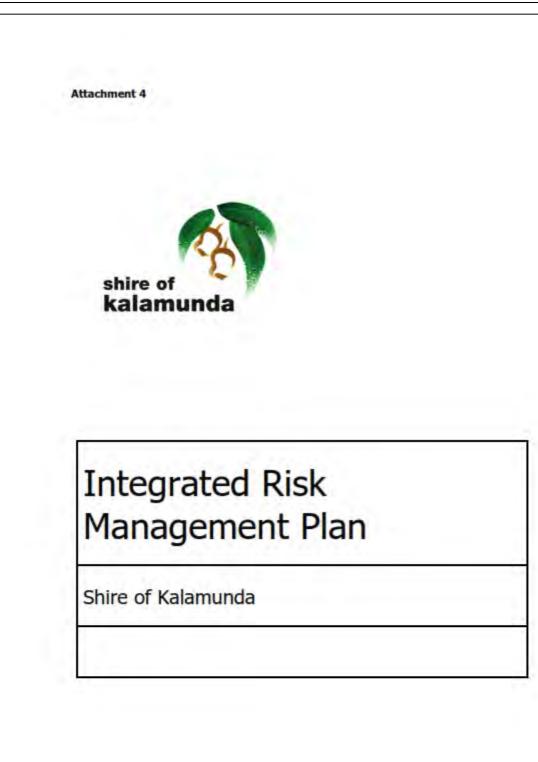

#### Half Yearly Review

Provide the Audit and Risk Committee with a report on the outcomes of the quarterly reviews covering Strategic, Operational and Project Risks and the action being taken to address all items identified.

# Introduction

#### Purpose

The Risk Management Plan provides the necessary foundation and organisational arrangements for managing risk. This document describes how the Shire of Kalamunda will manage the strategic operational and project risks associated with governance, management and operations of the Shire. Risks will be identified and treated using AS/NZS /ISO 31000:2009 using the risk appetite and tolerance levels of the Shire of Kalamunda as a guideline. It defines roles and responsibilities for those involved in the risk processes, the risk management activities undertaken, the schedule and budget for risk management activities and any applications that will be applied.

#### • What is risk management?

A risk is defined as the effect of uncertainty (either positive or negative) on business objectives.

Risk management is the coordination of activities that directs and controls the organisation with regard to risks. It is commonly accepted that risk management involves both the management of potentially adverse effects as well as the realisation of potential opportunities.

In performing daily activities, risk management can be described as the collection of deliberate actions and activities carried out at all levels to identify, understand and manage risk in order to achieve the objectives of the shire.

#### Benefits of risk management

The benefits of risk management embedded in all aspects of management are:

- effective management of adverse events or opportunities that impact on our purpose and objectives
- ability to make informed decisions regarding management of potential negative effects of risk and take potential advantage of opportunities
- improved planning and performance management processes enabling a strong focus on core business service delivery and implementation of business improvements
- ability to direct resources to risks of greatest significance or impact
   improvement in culture of the organisation enhancing staff capacity to understand
- their role in contributing to the achievement of objectives
- greater organisational efficiencies
- Goals of the plan

The Plan aims to:

- integrate risk management within the shire's performance management cycle
- communicate the benefits of risk management
- convey the shire's policy, approach and attitude to risk management.
- · set the scope and application of risk management within the organisation
- establish the roles and responsibilities for managing risk

- set out a consistent approach for managing risk across the organisation, aligned with relevant standards and industry best practice
- · detail the process for escalating and reporting risk
- convey the shire's commitment to the periodic review and verification of the Risk Management Plan and its continual improvement
- describe the resources available to assist those with accountability or responsibility for managing risks
- ensures the shire meets its risk reporting obligations
- Principles underpinning the plan

The Australian Standard for Risk Management – Principles and guidelines (AS/NZ ISO 31000:2009) is based on 11 best practice principles. These principles underpin the Plan and guide how to effectively and efficiently manage risk at all levels.

- Creating and protecting value risk management contributes to the achievement of the Shire's objectives and improves performance in areas such as corporate governance, program and project management, and employee health and safety.
- An integral part of all organisational processes risk management is not a stand-alone activity performed in isolation. Rather, it is an integral part of our governance and accountability framework, performance management, planning and reporting processes.
- Part of decision making risk management aids decision-makers to make informed choices, prioritise activities and identify the most effective and efficient course of action.
- Explicitly addressing uncertainty risk management identifies the nature of uncertainty and how it can be addressed through a range of mechanisms, such as sourcing risk assessment information and implementing risk controls.
- Systemic, structural and well timed- risk management contributes to efficiency and to consistent, comparable and reliable results.
- Based on the best available information risk management should draw on diverse resources of historic data, expert judgement and stakeholder feedback to make evidence-based decisions. As decision-makers, we should be cognisant of the limitations of data, modelling and divergence amongst experts.
- Tailored risk management aligns with the internal and external environment within which the Shire operates, and in the context of its risk profile.
- Human and cultural factors- risk management recognises that the capabilities, perceptions and aims of people (internal and external) can aid or hinder the achievement of objectives.
- Transparent and inclusive risk management requires appropriate and timely involvement of stakeholders to ensure that it stays relevant and up to date. Involving stakeholders in decision making processes enables diverse views to be taken into account when determining risk criteria.
- Dynamic, interactive and responsiveness to change risk management responds swiftly to both internal and external events, changes in the environmental context and knowledge, results of monitoring and reviewing activities, new risks that emerge and others that change or disappear.
- Continual improvement of the organisation risk management facilitates continuous improvement of our operation by developing and implementing strategies to improve risk management maturity.

# Legislative Framework

## Risk Management Policy

## Intent

 The Shire of Kalamunda is committed to organisation-wide risk management principles, systems and processes that ensure consistent, efficient, and effective assessment of risk in all planning, decision making and operational processes. This will ensure compliance with the Financial Reporting, Budgeting and Integrated Planning requirements of the Local Government Act (1995), Local Government (Financial Management) Regulations 1996 and the Local Government (Audit) Regulations 1996.

#### Definition of Risk:

AS/NZS ISO 31000:2009 defines risk as "the effect of uncertainty on objectives."

- A risk is often specified in terms of an event or circumstance and the consequences that may flow from it. An effect may be positive, negative, or a deviation from the expected. An objective may be financial, related to health and safety, or defined in other terms..
- Definition of Risk Management: the application of coordinated activities to direct and control an organisation with regard to risk.

#### Principles – Framework - Process

The Shire of Kalamunda considers risk management to be an essential management function in its operations. They recognise that the risk management responsibility for managing specific risks lies with the person who has the responsibility for the function, service or activity that gives rise to that risk. The Shire is committed to the principles, framework and process of managing risk as outlined in AS/NZS ISO 31000:2009.

The Shire of Kalamunda will manage risks continuously using a process involving the identification, analysis, evaluation, treatment, monitoring and review of risks. It will be applied to decision making through all levels of the organisation in relation to planning or executing any function, service or activity.

In particular it will be applied to:

- Strategic and operational planning
- Expenditure of large amounts of money
- New strategies and procedures
- Management of projects, tenders and proposals
- Introducing significant change
- The management of sensitive issues.
- · The achievement of organisational goals and objectives.
- Compliance with Local Government Act (1995), Local Government (Audit) Regulations 1996
- · The ongoing health and safety of all employees at the workplace
- · Ensuring public safety within the Council's jurisdiction is not compromised.
- Limited loss or damage to property and other assets.
- · Limited interruption to business continuity.
- Positive public perception of Council and the Shire.
- · Application of equal opportunity principles in the workforce and the community.

#### Responsibilities

٠	Executive, managers and supervisors have the responsibility and accountability for
	ensuring that all staff are managing the risks within their own work areas. In each of
	these areas, risks should be anticipated and reasonable protective measures taken.

- All managers will encourage openness and honesty in the reporting and escalation of risks.
- All staff will be encouraged to alert management to the risks that exist within their area, without fear of recrimination.
- All staff will, after appropriate training, adopt the principles of risk management and comply with all policies, procedures and practices relating to risk management.
- All staff and employees will, as required, conduct risk assessments during the
  performance of their daily duties. The level of sophistication of the risk assessment will
  be commensurate with the scope of the task and the associated level of risk identified.
- Failure by staff to observe lawful directions from supervisors regarding the management of risks and/or failure of staff to take reasonable care in identifying and treating risks in the workplace may result in disciplinary action.
- It is the responsibility of every department to observe and implement this policy in accordance with procedures and initiatives that are developed by management from time to time.
- Council is committed morally and financially to the concept and resourcing of risk management.

#### Monitor and review

The Organisation will implement a robust reporting and recording system that will be regularly monitored to ensure closeout of risks and identification of ongoing issues and trends.

Risk management key performance indicators, relating to both organisational and personal performance will be developed, implemented and monitored, by the Shire's Executive and Council as appropriate

Signed:		Name

This policy is to remain in force until otherwise determined by Council.

### Legislation

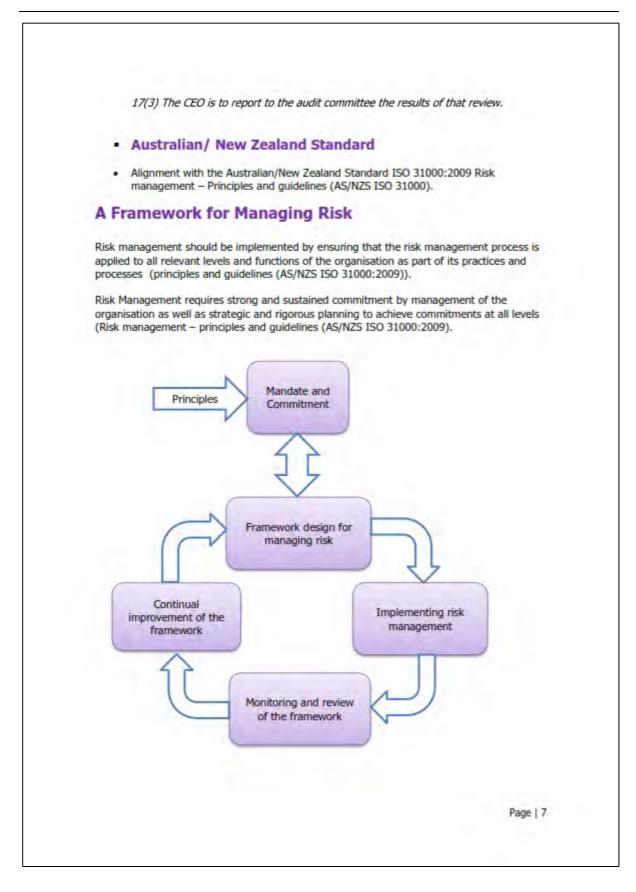

- Section 5.56(1) and (2) of the Local Government Act 1995- Planning for the Future; Regulation 17(1) (a) of the Local Government (Audit) Regulations: "The CEO is to review the appropriateness and effectiveness of a local government's system and procedures in relation to risk management".
- Under regulation 17 (1) of the Local Government (Audit) Regulations 1996 the CEO is to review the appropriateness and effectiveness of a local government's system and procedures in relation to –

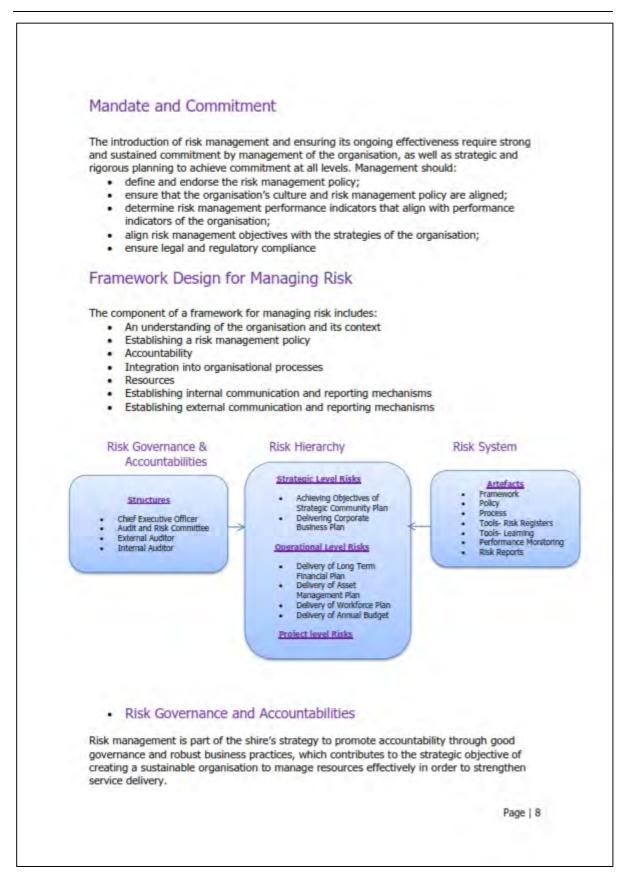

(a) risk management; and

(b) internal control; and

(c) legislative compliance.

17 (2) the review may relate to any or all of the matters referred to in sub regulation (1) (a),(b) and (c), but each of those matters is to be the subject at least once every 2 calendar years.

The Shire is committed to embedding risk management principles and practices into its organisational culture, governance and accountability arrangements, planning, information technology, engineering, community services, reporting, performance reviews, business transformation and improvement processes.

Through the framework and its supporting processes, the Shire formally establishes and communicates its risk appetite, guiding staff in their actions and ability to manage risk.

The Shire has a low appetite for risks relating to:

- · health, safety and the wellbeing of staff and the community
- administration of finances and assets
- legislative compliance

There is a potentially higher appetite where benefits created by innovative concepts and ideas outweigh the risks. Benefits may include improved service delivery, and/ or increases efficiencies and effectiveness of the shire's operations.

In accordance with the Framework, each business unit and directorate will communicate their appetite for risk as part of the risk assessment process.

To position the Shire as a risk-aware, responsive and resilient organisation, its risk management approach is directed through:

- compliance with relevant legislation, policies and procedures
- alignment with standards and better practice guides to soundly support decision making and continuous improvement or risk management practices

Effective risk management is modelled by:

- leadership demonstrated by the Chief Executive Officer and the executive management team
- staff in all work contexts through their identification, analysis, evaluation, treatment, monitoring and review of risks that may impact in achieving the shire objectives

The scope of responsibility and accountability for risk management is the business of everyone. The success of the Shire's risk management strategy relies on all staff enacting the risk management approach outlined in this framework.

## Structures

The Chief Executive Officer (CEO) - under legislation the CEO is required to review the appropriateness and effectiveness of a local governments systems and procedures in relation to risk management, internal control and legislative compliance at least once in every two years and report to the audit and risk committee the results of that review.

Audit and Risk Committee – each local government is to establish an audit and risk committee made up of at least three or more persons with the majority to be elected members. It has an oversight role on all matters that relate to audits including the appointment of the external auditor and review of reports from the CEO, external auditor and internal auditor. The audit and risk committee supports Council in its endeavours to

provide effective corporate governance and fulfil its responsibilities in relation to controlling and directing the affairs of the shire.

External Auditor — is the person appointed by the local government under the Local Government Act 1995 to undertake the audit of the accounts and financial report for each financial year. An audit report and management report is then issued to the Audit and Risk Committee.

**Internal Auditor** – is a person appointed by a local government to undertake an audit of the adequacy and effectiveness of the internal control, legislative compliance, accounting systems and procedures, review of policies, procedures and risk management in accordance with an audit plan. The internal auditor is to report his findings to the CEO, and as directed by the CEO, to the Audit and Risk Committee.

Risk Hierarchy

The levels of risks can be identified at different levels depending on what activity is being assessed. These include:

#### Strategic Level Risks

Strategic Level risks are associated with achieving the long term objectives of the Shire. These risks can be of an internal or external nature and they are usually controlled by Council and/or the Executive Management Team.

In the context of integrated Planning and Reporting, Strategic Level Risks may include:

- · Risks associated with achieving the objectives of the Strategic Community Plan:
  - Effective engagement with the community
  - Equity in involvement
  - Transparency of process
  - Integration of informing strategies
  - Organisational acceptance of Strategic Community Plan
- Risks associated with delivering the Corporate Business Plan:
  - Impact of new assets on changes to services
  - Aligning service delivery to meet organisational objectives
  - Resourcing and sustainability
  - Alignment of local government structures and operations to support achievement of objectives.

#### **Operational Level Risks**

Operational Level risks are associated with developing the operational plans, functions or activities of the local government. These risks have day to day impacts on the Shire and are owned and managed by the person who has responsibility for the activity to the level of delegated authority or capability.

In the context of Integrated Planning and reporting, Operational risk may include:

Risks associated with delivery of the Long Term Financial Plan

- Risks associated with the development or delivery of the Asset Management Plan
- Risks associated with the delivery of the Workforce Plan:

### Project Level Risks

Project level risks are associated with developing or delivering projects or discreet activities. Project risks should be managed at each stage of the project by the person who has responsibility for them.

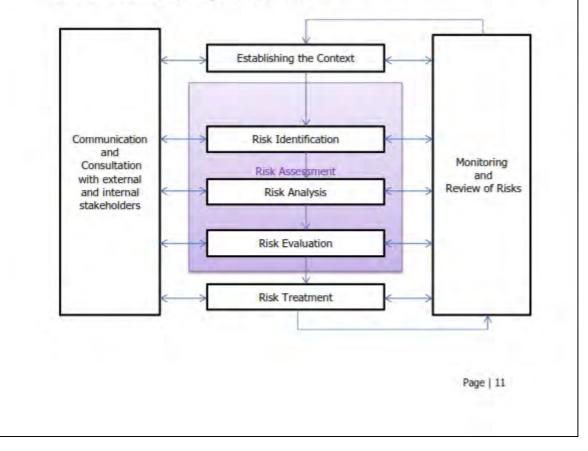

# **Implementing the Risk Management Plan**

Risk management should be implemented by ensuring that the risk management process is applied to all relevant levels and functions of the organisation as part of its practices and processes (principles and guidelines (AS/NZS ISO 31000:2009)).

## Risk System

## Risk management process

The risk management process should be an integral part of management, embedded in the culture and tailored to the business process of the Shire. The risk management process is shown in the following diagram (AS/NZ 31000:2009)

Communication and consultation with external and internal stakeholders should take place throughout the risk management process. Therefore plans for communication and consultation should be developed at an early stage. These should address issues relating to the risk itself, its causes, its consequences (if known), and the measures being taken to treat or address them.

It is an essential element of risk management as it helps stakeholders understand the basis on which decisions are made, and the reasoning behind particular actions.

Transparent clear communications throughout the process will help meet the obligations on local government for accountability and transparency.

Consulting with all stakeholders using a planned consultation process helps identify and address risks through improved understanding and backed by proper documentation.

## Establishing the Context

By establishing the context, the Shire articulates its objectives, defines the external and internal parameters to be taken into account when managing risk, and sets the scope and risk criteria for the remaining process. While many of these parameters are similar to those considered in the design of the risk management framework, when establishing the context for the risk management process, they need to be considered in greater detail and particularly how they relate to the scope of the particular risk management process.

## Risk Assessment

Risk assessment is the overall process of risk identification, risk analysis and risk evaluation. It includes the following components:

- · Establishing the context
- Identification of the risk
- Analysing the level of risk and establishing whether it meets acceptable levels of tolerance
- · Evaluating the risk in relation to the benefits it may provide
- Consideration on whether there are ways to mitigate risk and the treatment of risk.

## Risk Identification

The Shire should identify sources of risk, areas of impact, events including changes in circumstances) and their causes and their potential consequences. The aim of this step is to generate a comprehensive list of risks based on those events that might create, enhance, prevent, degrade, accelerate or delay the achievements of those objectives. It is also important to identify any risks associated with not pursuing an opportunity.

The techniques used to identify risks associated with the development, transition and operation of the SOK include:

Activity	Detail / timeframe	Participants
Strategic risk assessment as part of the decision making process	In planning processes and phased implementation timelines	Council, Executive and key stakeholders
Corporate risk analysis	In annual planning cycle and at key review points	Council, Executive and key stakeholders
Operational risk analysis	Agenda item on all regular Council, project, committee and staff team meetings	All relevant Elected Members and Officers
Internal and external Emergency management	As required	Executive, relevant staft and LEMC
Business Continuity	Ongoing with regular review	All relevant Elected Members and Staff
Review of current risk treatments and assessment of future organisational and project plans in relation to risk	Annually and as relevant	All relevant Elected Members and Officers
Incident / Issue reporting, investigation and review	When reported and monthly	All relevant staff and stakeholders
Feedback processes	Ongoing	All relevant staff and key stakeholders

Risk Assessment Categories

- Assets and Infrastructure
- Operation and maintenance
- Community
- Key Decision Making process
- Environment and Heritage
- Financial (short and long term)
- Information Technology (IT)
- Legal
- Political
- Technical
- Health and Safety
- Workforce Planning
- People Management
- Services and Functions

# Risk Analysis

Risk analysis involves developing an understanding of risk. Risk analysis provides an input to risk evaluation and to decision on whether risks need to be treated, and on the most appropriate risk treatment strategies and methods. Risk analysis can also provide an input into making decisions where choices must be made and the options involve different types and levels of risk.

# Risk Evaluation

The purpose of risk evaluation is to assist in making decisions, based on the outcomes of risk analysis, about which risks need treatment and the priority for treatment implementation.

Risk evaluation involves comparing the level of risk found during the analysis process with risk criteria established when the context was considered. Based on this comparison, the need for treatment can be considered.

The Shire has a low appetite for risks relating to:

- · health, safety and the wellbeing of staff and the community
- administration of finances and assets
- legislative compliance

There is a potentially higher appetite where benefits created by innovative concepts and ideas outweigh the risks. Benefits may include improved service delivery, and/ or increases efficiencies and effectiveness of the shire's operations.

Risk should be evaluated on the basis of materiality consideration to other matters including:

- health
- safety
- reputation to the organisation
- impact on operations
- the environment
- compliance
- timeframes
  financial impact
- · delays in meeting deadlines

The following chart provides examples to assist in the evaluation process in establishing whether risks are considered to be:

- insignificant immaterial and less than a \$10,000 financial impact, a minor breach of
  policy and will result in no health, safety or reputational impacts of the shire.
- minor- financial effect of between \$ 10,000 and \$100,000, may result in minor injury and reputation but can be contained within the shire
- major financial impact of between \$100,000 and \$500,000, may result in serious injury of individuals and may result in adverse finding on reputation
- critical financial impact of between \$500,000 and \$1 million resulting in significant injuries, breach of reputation of the shire, inability to deliver on deliverables
- extreme financial impact greater than \$ 1 million, resulting in death and permanent disabilities of individuals, breach in legislation resulting in external investigations and serious injury to the reputation of the shire

FINANCIAL	DESCRI	HEALTH	REPUTATION		ENVIRONMENT		
<less than<br="">\$10,000</less>	Insignific ant	No Injuries or Illness	low impact, low profile or "no news" item	Little Impact	Little impact	policy, or process requiring approval or variance	cost , timelines, scope or quality of objectives and required outcomes
\$10,000 - 100,000	Minor	First Aid treatment	Substantiated, low Impact, low news Item	delays	Minor damage or contamination	Breach of policy, process or legislative requirement requiring attention of minimal damage control	5-10% increase in time or cost or variation to scope or objective requiring managers approval
\$100,000- \$500,000	Major	Medical treatment	Substantiated, public embarrassment, moderate impact, moderate news profile	deliverables	Environmental damage requiring restitution or Internal clean up	Breach requiring internal investigation, treatment or moderate damage control	10 -20 % increase in time or cost or variation to scope or objective requiring Senior Management approval
\$500,000 - \$1millon	Critical	Extensive injuries or disabilities	Substantilated, organisational embarrassment, high impact news profile, third party actions	Non- achievement of major deliverables	Minor Breach of legislation / significant contamination or damage requiring third party assistance	Breach resulting in external investigation or third party actions resulting in tangible loss and some damage to reputation	20 — 50 % increase in time or cost or significant variation to scope or objective requiring restructure of project and Senior Management or Council approval
>More than \$1 million	Extreme	Death or permanent disabilities	Substantiated, public embarrassment, very high multiple impacts, high widespread multiple news profile, third party actions	Non- achievement of major deliverables	Major breach of legislation or extensive contamination and environmental damage requiring third party Intervention		> 50% increase in cost or timeline, or inability to meet project objectives requiring the project to be abandoned or redeveloped

# Risk Appetite and Tolerance

Given that local governments have limited resources, it is important to focus on the key risks. The risk management methodology outlined below has been adapted from the Australian /New Zealand Standard on Risk Management (AS/NZ ISO 31000:2009) to provide a structured approach for the Shire. This methodology will assist in the risk management process with particular emphasis on the following:

- Identifying the key risks facing the organisation
- Assessing whether the associated internal controls are effective
- Identifying whether further controls may be required

## Step 1: Identify Risks

The first step is to identify the key risks facing the shire. The aim of the risk identification is to consider all financial events which might affect the achievement of the shire's objectives and operations. Comprehensive identification of risk is important because a potential risk not identified at this stage may not be included in further analysis.

#### Step 2: Analyse Risks

Once the risks have been identified they are analysed in terms of how likely the risk event is to occur (likelihood) and the possible magnitude (consequences) of the risk event. From this analysis the level of inherent risk can be determined. The inherent risk represents the level of risk associated with a particular issue without considering any controls that might already be in place. The residual risk represents the level of risk remaining after controls have been successfully implemented and assessed for their effectiveness.

#### Likelihood /Consequences

LEVEL	DESCRIPTION	EXAMPLES	FREQUENCY
Ą	Almost Certain	Expected to occur in most circumstances	more than once per year
3	Likely	Will probably occur in most circumstances	At least once per year
c	Possible	Should occur at some time	At least once in three years.
p	Unlikely	Could occur at some time	At least once in ten years
E	Rare	May occur, only in exceptional circumstances	Less than once in fifteen years.

Matrix used to determine perceived level of risk

Conseque	ence	Insignificant 1	Minor 2	Major 3	Critical 4	Extreme 5
Almost Certain	A	н	н	18.	F	E
Likely	в	M	н	н	E	E
Possible	c	L	M	н	E	
Unlikely	D	L	L	м	н	ε
Rare	E	L	L	M	н	н

E = Extreme Risk: Immediate action required by EM or Executive Management

H = High risk : Senior management attention needed

M = Medium risk : Managed by specific monitoring or response procedures

L = Low risk : Manage by routine procedures, unlikely to need specific application of resources

#### Step 3 Evaluate control activities

The next step is to identify the control activities in place and evaluate the effectiveness of these controls on a scale of 1 - 5, with 1 being a low or ineffective rating to a high of 5 being highly effective.

Where a control activity has been given an effective rating of 3 or below by the responsible officer, some level of explanation should be provided for the deficiency in the control activity. In addition where a control activity has been given an effective rating of 3 or below by the checking officer, an action plan should be recorded. Further to this, where a control has not been implemented, an action plan should be recorded to implement the control, or a strong rational provided for its omission.

Once the control activity has been evaluated, an accurate assessment of the actual residual risk can be determined.

#### Step 4 Treat risks and control activities

The final step is to treat risks and control activities with the implementation of any action plans to correct deficiencies. It is also appropriate to identify the further controls that should be implemented to ensure the risks are being managed at an acceptable level. Consistent with the accountability principles of a robust corporate governance environment, each additional control to be implemented should be assigned to a nominated responsible officer.

#### **Key Success Factors**

In using the risk matrix, it is important to recognise that in initial debate, unless there are subject professionals or experts in the conversations the results will guide the discussions, but more information will be needed to further define the risk level.

## Risk Treatment

When a risk has been assessed there are a number of options available including:

- Not undertake or continue with an activity
- Increase the risk to pursue an opportunity
- Remove the source of the risk
- Change the likelihood of the risk
- Share the risk with another party such as insurers
- Retain the risk and ensure it is continually monitored.

### Monitoring and Review of Risk

An essential element of the risk management process is the monitoring and review of risk. This may be by internal audit review of process and internal controls depending on the nature

## Tools – risk registers

The risk register enables staff to document, manage, monitor, review and update strategic, corporate and operational risk information. Maintaining and updating the risk register allows management to monitor and review risks in alignment with the strategic plan, divisional operational plans, programs of change and other related plans.

## Risk reporting

As there is no one single risk report that meets the decision making needs of the Shire, risk reports are to tailored by the accountable area and summarised using the preferred templates to support management decision during the planning and review processes, and in support of reports to Council.

## Tools for building risk capability

A range of guides and publications are available to build staff awareness and develop skills by enabling staff to proactively manage risk. This increased awareness and understanding provides staff with greater self-confidence and willingness to take responsibility for the management of risk across their business unit directorate.

Recommended guides and publications include:

- Risk Management Resources Department of Local Government March 2013
- Section 7 of the Western Australian Local Government Accounting Manual Department of Local Government
- AS/NZS ISO 31000:2009 Risk Management Principles and guidelines by Standards Australia

- Review risk management performance against objectives
- Review risk management IT system ( CAMMS Module)
- · Review organisational risk management culture
- Include review of the risk registers in strategic and operational planning and budgeting.
- Include Risk Management in all new business ventures and activities
- Include Risk Management as part of purchasing process.
- Include risk management in annual performance appraisals
- Conduct annual risk management internal audit.
- Look for continuous improvement opportunities
- Review if the Integrated Organisational Risk Management Plan used as reference and orientation document
- Review if risk management accountabilities and responsibilities are included in position descriptions and KPIs.
- Review if hazard management processes aligned for both OSH and all organisational risks

## KPIs and Performance Measures

Key Performance Indicators (KPIs)

These indicators are a quantitative measure of the level of performance of a business function or activity. It will be a requirement to measure the KPIs of the Risk Management objectives of the Shire of Kalamunda, to ensure accountability and continuous improvement of each business unit.

# Monitoring, Review and Continual Improvement of the Framework

The monitoring and review should be a planned part of the risk management process and involve regular checking and surveillance. Strategic risks should be reviewed quarterly by Executive. Project risks should be reviewed on an ongoing basis and operational risk should be reviewed by each Directorate quarterly.

Responsibilities for monitoring and review should be carried our periodically and clearly defined. The review process should encompass all aspects of the risk management process.

The main aim of the monitoring and review process is to:

- · Ensure key controls remain efficient and effective within the shire
- Provide early identification of changes in the risk context or risk assessment which
  may require revision of the risk treatment
- Identify any new or emerging risk due to changes in circumstances
- Review risks due to changes in legislation and procedures
- Independent investigations and reports with adverse findings requiring steps to be taken in relation to risk and processes.

## Shire of Kalamunda Business Continuity Plan

## Introduction

The purpose of developing a Business Continuity Plan is to enable the Shire to implement a planned response to major incidents that have the potential to significantly impact the Shire's ability to deliver Key business activities. A major incident has the potential to significantly impact the Shire's ability to deliver its priority services and functions and which may cause casualties, property damage, business interruption, financial loss and damage to the Shire's reputation and image.

#### **Developing a Business Continuity Plan**

The Shire's Plan incorporates the Prevention, Preparedness, Response and Recovery (PPRR) framework. Each of the four elements is represented by a part in the Business Continuity Planning Process.

#### **Business Continuity Management Process**

Business Continuity Management aims to ensure the timely resumption of essential business activities that are interrupted as a result of a major disruption. The primary output of the BCM process is a Business Continuity Plan (BCP) which enables the mitigation of some of the Shire's key business risks.

The BCP is initiated when a risk event occurs resulting in a business interruption consequence. Such interruptions are typically referred to as outages and usually involve a significant disruption to or loss of key business activities over a prolonged period of time. The concept of an outage has a critical time dimension as well as a business impact dimension. The BCM process establishes the maximum periods for which each activity can be disrupted before business impacts (reputational damage, financial loss, and regulatory breaches) become unacceptable to the Shire. Business Continuity Management focuses on the consequences of an outage and the necessary steps to contain or minimise the negative consequences of that outage.

The steps required to activate the BCP are highlighted in **attachment 1**. The BCP activation incorporates the following critical phases:

#### Emergency Response

The initial response to a disruption, which involves the protection of people, and property from immediate harm.

#### **Continuity Response**

Processes, controls and resources are made available immediately following an interruption to ensure that the Shire continues to deliver its critical business functions.

#### **Recovery Response**

Processes, resources and capabilities of the Shire are re-established to return the organisation to normal operations.

In order to ensure the resumption of critical business activities within specified timeframes, for each activity an assessment of resources including people, data, services and supplies is undertaken.

Identification and implementation of response options includes:

- Temporary suspension of the business activity Activities that have been determined nonessential are suspended temporarily enabling the Shire to free up resources required in order to deliver higher priority activities.
- Transferring the activity Where activities are performed at alternative locations, the work at a location affected by a business outage, will be transferred to non- affected locations.
- Working from home Business activities may be carried out by enabling staff to work from home, where those activities require little or no dependency on the infrastructure of a normal office environment.
- Relocation to an alternative back site Business activities may be resumed at an alternative site where the primary site is impacted by a major disruption.

#### Crisis Management Team and restoration of critical business operations

Implementing the response plan is the responsibility of the Crisis Management Team which is convened by the Director Corporate Services, following a critical interruption to business services. The Crisis

Management Team has the authority to respond in the best interests of all stakeholders and its crisis response decisions may override the existence or normal interpretation of policies and standard procedures. The Crisis Management Team is required to provide a focused response to a crisis event by focusing on:

- Minimising injury or loss of life and protecting the safety of employees and stakeholders;
- Providing a flexible but structured response process scalable to a variety of emergencies;
- The facilitation of reasoned decision making during potentially stressful environments.

Where urgent action is required, the Shire President may authorise emergency expenditure without reference to purchasing and procurement requirements.

Processes, controls and resources are made available immediately following an interruption to ensure that the Shire continues to deliver its critical business functions.

Coordination of the Shire's return to normal business operations by convening the Crisis Management Team, who will work through the emergency response, continuity response and recovery response phases of the BCM process. Following an assessment of the business interruption, the Crisis Management Team will identify an appropriate site from which to commence the resumption of critical business services. The recovery operation may be led from a number of centres, including, the Operations Centre, the High Wycombe Recreation Centre, Kalamunda Performing Arts Centre, or the Hartfield Park Recreation Centre. Other Shire facilities may also be used from which to coordinate the resumption of critical business services.

The process for restoration of critical business operations is driven by the Maximum Allowable Outage table which prioritises the Shire's business operations and identifies the maximum length of time that a business activity may be unavailable before the Shire suffers significant detrimental effects to its business operations. The Staff Accommodation table specifies the <u>minimum</u> number of staff required to perform each priority business activity.

96

#### Definitions

It is important to make a distinction between business continuity management and disaster recovery.

**Business Continuity Management** provides the mechanisms by which the Shire's business becomes resilient to disruptions caused by crisis and emergencies. Business Continuity Management focuses on the timely restoration of business as usual.

Crisis Management Team the nominated team responsible for implementing the business continuity response.

**Disaster Recovery** refers to the process of regaining access to the necessary systems required to resume critical business operations following a natural or manmade disaster.

Business Impact Analysis the process of gathering information to establish basic recovery requirements for priority business services in the event of a crisis or disaster.

Key business activities those activities assessed as essential to deliver outputs and achieve business objectives.

Maximum Allowable Outage the time frame from which a crisis or disaster is declared compared to the time for which the critical business functions must be fully operational before an outage compromises the Shire's ability to achieve its business objectives.

Risk Management the process of defining and analysing risks, and defining the appropriate course of action in order to minimise those risks, whilst still achieving business goals.

#### **Coverage of the Business Continuity Plan**

This plan covers events that interrupt the delivery of the Shire's services for a period of time greater than 1 working day.

This plan relates to the Shire Administration building, the Operations Centre and the Home and Community Care centre (HACC).

This includes (but is not limited to) events such as fire, civil disruption or natural disasters as well as losses of Information Services (IS), power and other services, that are expected to continue for a period of time (generally longer than a day).

This plan is not to be invoked for things such as brief outages of IT services or losses of power, or short disruptions due to maintenance issues. It is considered that these would be managed within standard operational activities.

# CMT Membership and roles

CMT Members	Actions and Responsibilities
Director Corporate Services	Convenes the CMT.
	Liaises with Directors.
	Allocates resources, sets priorities and resolves conflicts.
	Ensures the security of assets and staff.
	Monitors the emergency response.
	Ensures CMT has up to date information on the status of business continuity efforts.
Chief Executive Officer	Single source of information to internal and external stakeholders and the media.
	Approves all communications prior to issuance.
Director Development Services	Coordinates advice regarding environmental or public health impacts resulting from a service interruption.
Corporate Support Manager	Coordinates execution of the Disaster Recovery Plan.
	Resolve systems, networks and applications issues.
	Provides updates to CMT on status of ISB recovery actions.
	Coordinates execution of business recovery plans.
Director Infrastructure Services	Liaises with Building Management or external agencies to assess damage, salvage and repair operations.
	Coordinates relocation to alternative site.
	Plans for relocation to primary site.
Manager Financial Services	Supports the Insurance Claims process.
	Facilitates the acquisition of (non ISB) goods and services required to effect business continuity. These include but are not limited to accommodation, office furniture and vehicles.
Manager Strategy and People Services	Provide employee assistance such as medical assistance, counselling, insurance claims and payroll.
	Liaise with victim's families.
	Provides recruitment support.
Manager Community Development	Liaises with Community Groups that are affected by the business interruption.
Public Relations Co-ordinator	Provides assistance with the media and public relations activities.
Executive Research Officer CEO	Provides administrative support to the CMT.

## **Tasks and Actions Kalamunda Shire locations**

When an event occurs at the Shire Offices, the following actions should occur.

Action	Responsibility		
Should an event (e.g. fire) require partial or full evacuation of the building, established emergency procedures are to be followed.	Fire Wardens and Director Infrastructure Services Director Corporate Services		
The nature and extent of the event will be established, through consultation with staff, building management and, where necessary, emergency services.			
Where the event is expected to cause significant interruptions to Shire activities (i.e. of more than one day) the Director Corporate Services will convene the CMT by contacting team members by telephone.	Director Corporate Services		
The CMT meets as a matter of priority at the Operations Centre, High Wycombe Recreation Centre, Kalamunda Performing Arts Centre or the Hartfield Park Recreation Centre. The CMT emphasis will be on establishing and confirming short term measures, in response to the event. This includes (but is not limited to):	СМТ		
<ul> <li>Safeguarding the health and safety of employees and visitors;</li> </ul>			
<ul> <li>Actions to ensure the continuity and recovery of Shire services; and</li> </ul>			
<ul> <li>Communication with staff, other agencies and the media.</li> </ul>			
The CMT should meet daily during the outage, until such time as it determines that meetings can be held with less frequency.			
Where an event impacts upon the Shire's Information Systems, authorise the enactment of the ISB Disaster Recovery Plan.	Manager Corporate Support		
Arrangements are made to accommodate staff in accordance with established priorities and protocols (see section on Accommodating Staff below).	СМТ		
Maintain liaison with building management and emergency services, where required.	Director Infrastructure Services		

Please note that priority activities will be restored according to their maximum allowable outage specified with the Maximum Allowable Outages table.

## **Events at other Shire locations**

Business Disruption Location	Relocation
Operations Centre	The minimum number of staff identified in the respective appendix 1 activities will be relocated to the nearest back up site not affected by the business interruption event.
Recreation Centres (2)	The minimum number of staff identified in the respective appendix 1 activities will be relocated to the nearest back up site not affected by the business interruption event.
Kalamunda Home and Community Care Centre	The minimum number of staff identified in the respective appendix 1 activities will be relocated to the nearest back up site not affected by the business interruption event.
Libraries (4)	The minimum number of staff identified in the respective appendix 1 activities will be relocated to the nearest back up site not affected by the business interruption event.
Kalamunda Performing Arts Centre	The minimum number of staff identified in the respective appendix 1 activities will be relocated to the nearest back up site not affected by the business interruption event.

## Accommodating Staff - Shire Administration Office

The following protocols are to be followed in relocating staff affected by an outage:

- The numbers of staff that will need accommodation will depend upon the area affected and the expected outage.
- As far as possible, staff will be accommodated in the timeframes scheduled (e.g. 1 day, 3 days and so on), as noted in the Minimum Staff Requirements.
- Staff will be accommodated into vacant desks, at the following locations, in order:
  - · Operations Centre;
  - High Wycombe Recreation Centre;
  - Kalamunda Performing Arts Centre
  - Hartfield Park Recreation Centre

When accommodating staff, vacant workstations (including those occupied by part time or casual staff, staff on leave, hot desks etc.) would be utilised in the first instance.

The number of possible work stations for each location is:

	Desks	Potential work areas in meeting rooms etc.	Total	Notes
Operations Centre	25			0
High Wycombe Recreation Centre	50			
Kalamunda Performing Arts Centre	120			
Hartfield Park Recreation Centre	80			

- Where the expected outage and the number of affected staff dictate, meeting and training rooms will be converted to offices. This will be determined by the CMT and actioned by the Director Infrastructure Services. Where necessary the Manager Financial Services will authorise such work in accordance with financial delegations.
- Where necessary, staff may be relocated to desks occupied by staff engaged in non-critical activities (i.e. an identified lower priority). This will be determined by the CMT.
- Depending upon the nature of the event, and the expected outage, more staff may be accommodated than the minimum numbers detailed in the schedules. This will be decided upon by the CMT.
- It is expected that staff not accommodated within an office, will work remotely.
- Where the expected outage occurs at other than the Shire Administration Office, the relocation protocols specified above are to be followed.

#### 20. 2013/14 Integrated Planning and Reporting Assessment

Previous Items Responsible Officer Service Area	OCM 10.2.5, 10.2.6/2013 Director Corporate Services Internal Auditor
File Reference Applicant Owner	N/A N/A
Attachment 1	2013/14 Integrated Planning and Reporting Assessment

#### PURPOSE

1. To inform members of the Audit and Risk Committee that the Department of Local Government and Communities (the Department) conducted an assessment of the Integrated Planning and Reporting (IPR) Framework submitted by the Shire in September 2013.

#### BACKGROUND

2. The Department has reviewed key documents submitted by the Shire of Kalamunda against the Integrated Planning Assessment Criteria. The documents evaluated included the Strategic Community Plan, Corporate Business Plan, Long Term Financial Plan, and Asset Management Plan.

#### DETAILS

- 3. The Shire met all the criteria on the four documents that were assessed except for:
  - Item 10 of the Strategic Community Plan regarding whether local public notice had been given for a minimum of seven days with details of where and when the plan could be inspected; and
  - Item 2a of the Asset Management Plan to address the Asset Consumption Ratio. In relation to this ratio the Shire did state it was unable to calculate this ratio at present until the Fair Value of assets had been assessed and determined.

## STATUTORY AND LEGAL CONSIDERATIONS

4. Section 5.56 of the *Local Government Act 1995* Part 5 of the *Local Government (Administration) Regulations 1996* 

## POLICY CONSIDERATIONS

5. Nil.

#### COMMUNITY ENGAGEMENT REQUIREMENTS

6. Nil.

## FINANCIAL CONSIDERATION

7. Nil.

## STRATEGIC COMMUNITY PLAN

## **Strategic Planning Alignment**

8. Kalamunda Advancing: Strategic Community Plan to 2023

Strategy 6.8.4 Provide effective financial services to support the Shire's operations to meet sustainable planning, reporting and accountability requirements.

## SUSTAINABILITY

## **Social Implications**

9. Nil.

#### **Economic Implications**

10. Nil.

#### **Environmental Implications**

11. Nil.

#### **RISK MANAGEMENT CONSIDERATONS**

1	2	

	Risk	Likelihood	Consequence	Rating	Action/Strategy
ac pr da pu or St Co Pl	ailure to dvertise and rovide seven ays local ublic notice n where and then the trategic ommunity lan can be uspected.	Possible	Minor	Low	There was community consultation and the document was placed on the Shire's web site
th Co	ddressing ne Asset onsumption atio	Unlikely	Minor	Low	This ration will be addressed when assets are brought in at fair value.

#### **OFFICER COMMENT**

- 13. The Shire has been commended on the implementation of the Integrated Planning and Reporting Framework by the Department (Attachment 1).
- 14. The Shire requested information from the Department regarding how its assessment compared to that of other local governments. The Department advised that it did not conduct a comparative assessment as they have not scored the assessments and were therefore unable to provide this information.
- 15. Giving local public notice appears to have been inadvertently overlooked. The Asset Consumption Ratio will be addressed when assets are all brought in at fair value.

## Voting Requirements: Simple Majority

## OFFICER RECOMMENDATION (A&R 20/2014)

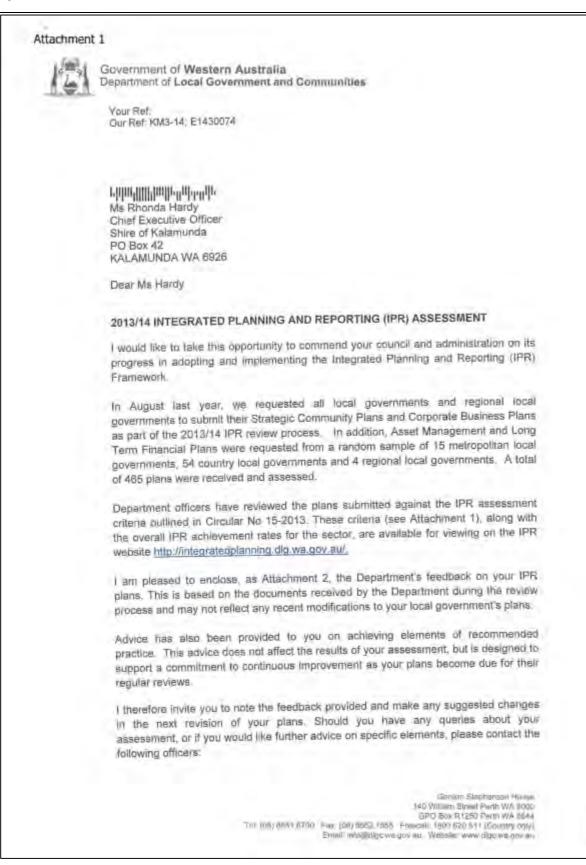

That Council:

1. Notes the result and comments received from the Department of Local Government and Communities on the assessment of the Shire of Kalamunda's Integrated Planning and Reporting Framework.

Moved:

Seconded:

Vote:

Ms Ning Yan Senior Project Officer Local Government Regulation and Support <u>ning.yan@dlgc.wa.gov.au</u> (08) 6552 1701

Your Strategic Community Plan and Corporate Business Plan provide a strong foundation for your council and administration to meet the immediate and long-term sustainability challenges facing your community. In particular, they will continue to be valuable planning tools in addressing the community development priorities that you have set for the years ahead. Further, these plans will provide valuable guidance to the State Government, for example through the development of Regional Investment Blueprints, and as input into the service delivery plans of individual State agencies.

I hope that you will find the enclosed feedback useful in reviewing and using these plans to build partnerships with the government, business and community sectors that will meet the evolving needs of your local community.

Yours sincerely

gnadeca

Jennifer Mathews DIRECTOR GENERAL .

#### ATTACHMENT 1: IPR STANDARDS

Plan	ltem	Criterion
A. Strategic Community	1.	Plan exists
Plan	2.	A 10 year timeframe
	3.	States community aspirations, vision and objectives
	4.	Is adopted by an absolute majority of council
	5.	Is developed with community input which is documented
	6.	Has consideration of current and future resources
	7.	Has regard to demographic trends
	8.	Has regard to strategic performance measures
	9.	A strategic review of the Strategic Community Plan is to be scheduled for 2 years from when it is adopted; and A full review of the Strategic Community Plan is to be scheduled for 4 years from when it was adopted.
	10.	Upon adoption of the Strategic Community Plan, local public notice is given.
B. Corporate Business	1.	Plan exists
Plan	2.	A minimum 4 year timeframe
	3.	Identifies and prioritises Council strategies and activities in response to the aspirations and objectives of the Strategic Community Plan.
	4.	States the service, operations and projects that a local government will deliver, the method for delivering these and the associated costs.
	5.	References resourcing considerations such as Asset Management Plans, Finances and Workforce Plan.
	6.	Is adopted by an absolute majority of Council
	7.	A review of the Plan is conducted every year
C. Long Term Financial	1.	Long Term Financial Plan exists
Plan	2.	Addresses Finance Ratios: a. Operating Surplus Ratio b. Current Ratio c. Debt Service Cover Ratio d. Own Source Revenue Coverage Ratio
D. Asset Management	1.	An Asset Management Plan exists
Plan	2.	Addresses Asset Ratios, or provides reference to them in the Long Term Financial Plan: a. Asset Consumption Ratio b. Asset Sustainability Ratio c. Asset Renewal Ratio

#### ATTACHMENT 2: IPR ASSESSMENT - SHIRE OF KALAMUNDA

#### A. STRATEGIC COMMUNITY PLAN

IPR Standards achieved as outlined in Attachment 1 except for:

## Item 10. Upon adoption of the Strategic Community Plan, local public notice is given.

 No evidence indicating that local public notice was given for a minimum of 7 days with details on where and when the plan can be inspected (i.e. a copy of the newspaper advertisement) was provided to DLGC.

#### B. CORPORATE BUSINESS PLAN

IPR Standards achieved as outlined in Attachment 1.

#### C. LONG TERM FINANCIAL PLAN

IPR Standards achieved as outlined in Attachment 1.

#### D. ASSET MANAGEMENT PLAN

IPR Standards achieved as outlined in Attachment 1 except for:

#### Item 2a. Address Asset Consumption Ratio

- The requirement to address this ratio in the Asset Management Plan or provide reference to the Ratio in the Long Term Financial Plan has not been met.
- However DLGC notes the Shire has stated that it is unable to calculate this ratio at
  present until Fair Value of assets have been assessed and determined and
  anticipated this to occur by June 2015. Therefore DLGC would recommend the
  Shire amend the plans as soon as data becomes available.

Declaration of financial / conflict of interests to be recorded prior to dealing with each item.

#### 21. Policy Review – Code of Conduct

Previous Items	OCM 49/2008
Responsible Officer	Chief Executive Officer
Service Area	Office of the Chief Executive Officer
File Reference	OR-CMA-022
Applicant	N/A
Owner	N/A
Attachment 1	Code of Conduct for Elected Members
Attachment 2	Code of Conduct for Employees

#### PURPOSE

1. To consider and adopt revised Codes of Conduct for Elected Members (Attachment 1) and Employees (Attachment 2).

## BACKGROUND

2. As part of the ongoing review of the Policy Register, the current Code of Conduct (Codes) was identified as needing revision and updating to ensure compliance with legislative requirements and is aligned with the current strategic and operational directions of the Shire.

## DETAILS

- 3. The current Code was adopted in 2008 and with some amendments being made to the legislative requirements since then and to the operational and strategic directions of the Shire, particularly the adoption of the Governance Framework in May 2013, changes and improvements are required to the code.
- 4. Additionally, due to different requirements for Elected Members and Employees, a decision was made to develop two Codes to ensure there is no confusion between these requirements. A number of other local governments have also recently adopted this process.
- 5. Enhancements have been made to the overall content of the Codes including:
  - Tighter processes/controls with respect to acceptance of gifts.
  - Stronger and clearer alignment with Policies.
  - Stronger requirement for staff to comply with the Code through a declaration of compliance, similar to the councillor oath.
  - Inclusion of a formal complaints process.
  - Introduction of comprehensive referencing information.

#### STATUTORY AND LEGAL CONSIDERATIONS

6. Section 5.103 (1) of the *Local Government Act 1995* requires the adoption of a code of conduct.

7. Regulations 34B and 34C of the *Local Government (Administration) Regulations 2009* provide for certain matters that must be included in a code of conduct.

## POLICY CONSIDERATIONS

8. The proposed Codes of Conduct continues the revision and updating of the Shire's Policies.

#### COMMUNITY ENGAGEMENT REQUIREMENTS

9. Not required for this item.

#### FINANCIAL CONSIDERATIONS

10. There are no financial impacts from this item.

## STRATEGIC COMMUNITY PLAN

#### Strategic Planning Alignment

11. *Kalamunda Advancing: Strategic Community Plan to 2023* 

OBJECTIVE 6.3 To lead motivate and advance the Shire of Kalamunda.

Strategy 6.1.2 Regularly review the organisation's structure, policies and procedures in response to changing circumstances.

#### SUSTAINABILITY

the new				needs of the organisation
Codes of				and are compliant with
Conduct.				legislative requirements.

#### OFFICER COMMENT

- 16. The draft Codes of Conduct were referred to the Shire's lawyer for review and comment. A small number of minor corrections were recommended to ensure compliance with legislative requirements and to clarify some provisions contained in the draft Codes.
- 17. The development of two Codes and the overall approach and content was commended by the lawyer.

## Voting Requirements: Simple Majority

## OFFICER RECOMMENDATION (A&R 21/2014)

That Council:

- 1. Pursuant to section 5.103 (1) of the *Local Government Act 1995*:-
  - Adopts the Code of Conduct for Elected Members (Attachment 1)
  - Adopts the Code of Conduct for Employees (Attachment 2)
- 2. Revokes the current Code of Conduct Policy ADM 5.

#### 22. Adoption of Annual Financial Report 2013/2014

Previous Items Responsible Officer Service Area File Reference Applicant Owner	N/A Chief Executive Officer Office of the Chief Executive Officer FI-SRR-005 N/A N/A
Attachment 1	2013/2014 Annual Financial Report
Attachment 2	Auditor's Management Report for the year ended 30 June 2014
Attachment 3	Local Government Operational Guidelines – Financial Ratios No 18

## PURPOSE

- 1. To receive the Auditor's Report and the 2013/2014 Annual Financial Report (Attachment 1).
- 2. To consider the Auditor's Management Report for the year ended 30 June 2014 (Attachment 2) and the administration's response.

#### BACKGROUND

- 3. Section 6.4 (1) of the *Local Government Act 1995* (The Act) requires a local government to prepare an Annual Financial Report for each financial year and details what the Annual Financial Report is to contain.
- 4. Section 6.4 (2) of the Act requires a local government to submit by 30 September following each financial year or as such time as the Minister allows, submit to its auditor –
  - (a) The accounts of the local government, balanced up to the last day of the preceding financial year; and
  - (b) The annual financial report of the local government for the preceding financial year.
- 5. Section 7.12 (3) of the Act requires the local government to examine the report of the auditor under section 7.9(1) and any other report prepared under section 7.9(3) forwarded to it, and is to
  - (a) Determine if any matters raised by the report or reports require action to be taken by the local government; and
  - (b) Ensure that appropriate action is taken in respect of those matters.
- 6. Section 7.12 (4) of the Act requires the Shire to
  - (a) Prepare a report on any actions under subsection (3) in respect of an audit conducted in respect of a financial year; and
  - (b) Forward a copy of that report to the Minister,

By the end of the next financial year, or six months after the last report prepared under section 7.9 is received by the local government, whichever is the latest time.

## DETAILS

- 7. The 2014 Annual Financial Report is presented for the Council's acceptance.
- 8. The Auditors, UHY Haines Norton, conducted the field work in May and August of 2014 and concluded their work on 12 November 2014. The audit certificate is provided on page 60-61 of the Annual Financial Report. As noted by the auditors, there were no indications of significant adverse trends in the financial position or financial management practices of the Shire.
- 9. The Auditors, UHY Haines Norton, as per normal practice also issue a Management Report which provides comment on the Financial Ratios as required by the Local Government *(Financial Management) Regulations 1996* regulation 50. As indicated in the report, all ratios except one were within the acceptable range as provided by the Department of Local Government and Communities (Attachment 3). More effort is required in investing in the Shire's renewable assets which has been targeted in the Asset Management Plan and reflected in the Long Term Financial Plan for 2014-24.
- 10. The Asset ratios will be further impacted by recalculations on depreciation and asset conditions with the coming revaluation of infrastructure assets which is planned to be completed by 30 June 2015.
- 11. As noted in the report, the ratios will need to be closely monitored by the administration to ensure the continued long term financial sustainability of the Shire.

## STATUTORY AND LEGAL CONSIDERATIONS

- 12. Sections 6.4, 7.9, 7.12 of the Act.
- 13. Regulation 51 of the *Local Government (Financial Management) Regulations 1996.*

#### POLICY CONSIDERATIONS

14. There are no policy implications.

#### COMMUNITY ENGAGEMENT REQUIREMENTS

15. Although no community engagement consultation is required in the preparation of the Annual Financial Report, Section 5.55 of the Act requires that the Chief Executive Officer give local public notice of the availability of the Annual Report as soon as practicable after the Annual Report has been accepted by the local government. The Annual Financial Report forms one part of the contents in the Annual Report.

## FINANCIAL CONSIDERATION

16. The 2013/2014 Budget includes provision for the cost of having the accounts and the Annual Financial Report audited by an externally appointed registered auditor. The audit fees for 2013/14 is estimated at \$55,142.

## STRATEGIC COMMUNITY PLAN

#### **Strategic Planning Alignment**

#### 17. *Kalamunda Advancing: Strategic Community Plan to 2023*

OBJECTIVE 6.8 To ensure financial sustainability through the implementation of effective financial management, systems and plans.

Strategy 6.8.4 Provide effective financial services to support the Shire's operations and to meet sustainability planning, reporting and accountability requirements.

#### SUSTAINABILITY

#### **Social Implications**

18. Nil.

#### **Economic Implications**

## OFFICER COMMENT

22. The 2013/14 Annual Financial Statement include:

- Statement by the Chief Executive Officer
- Statement of Comprehensive Income by Nature and Type
- Statement of Comprehensive Income by Program
- Statement on Financial Position
- Statement of Changes in Equity
- Cash Flow Statement
- Rate Setting Statement
- Notes to and forming part of the Financial Report
- Independent Auditor Report
- Supplementary Ratio Information
- 23. Regulation 51 of the *Local Government (Financial Management) Regulations 1996* requires the CEO to provide a copy of the Annual Financial Report to the Department of Local Government and Communities within 30 days of the receipt by the auditor's report on that financial report.

#### Voting Requirements: Simple Majority

## OFFICER RECOMMENDATION (A&R 22/2014)

That Council:

- 1. Pursuant to Section 6.4 of the *Local Government Act 1995*, accepts the 2013/2014 Annual Financial Report (Attachment 1).
- 2. Pursuant to Section 7.12 (3) of the *Local Government Act 1995,* notes the response to the issue raised by the Auditor in the Management Report (Attachment 2).
- 3. Request the Chief Executive Officer to ensure the Annual Financial Statements are forwarded to the Department of Local Government & Communities before the due date required.

12 November 2014

Cr S Bilich The Shire President Shire of Kalamunda PO Box 42 KALAMUNDA WA 6926

**Dear Cr Bilich** 

#### **MANAGEMENT REPORT FOR THE YEAR ENDED 30 JUNE 2014**

We advise that we have completed our audit procedures for the year ended 30 June 2014 and enclose our Audit Report.

We are required under the Local Government Audit Regulations to report certain compliance matters in our audit report. Other matters which arise during the course of our audit that we wish to bring to Council's attention are raised in this management report.

It should be appreciated that our audit procedures are designed primarily to enable us to form an opinion on the financial statements and therefore may not bring to light all weaknesses in systems and procedures which may exist. However, we aim to use our knowledge of the Shire's organisation gained during our work to make comments and suggestions which, we hope, will be useful to you.

#### **COMMENT ON RATIOS**

Last year (the year ended 30 June 2013) saw the introduction of new financial reporting ratios for local governments in Western Australia.

This year (the year ended 30 June 2014) is the second year of these new ratios and the information relating to these ratios is summarised below:

	Target	Shir	e's Actual Ra	itios	3 Year
	Ratio <sup>1</sup>	2014	2013	2012	Trend <sup>2</sup>
Current Ratio	≥ 1	1.064	1.165	0.856	1
Asset Sustainability Ratio	≥ 1.1	0.668	0.395	0.957	$\mathbf{\Psi}$
Debt Service Cover Ratio	≥ 15	12.964	9.168*	11.634	1
Operating Surplus Ratio	≥ 0.15	0.089	(0.004)*	0.042	1
Own Source Revenue Coverage Ratio	≥ 0.9	0.853	0.828*	0.850	1
Asset Consumption Ratio	≥ 0.75	0.764	0.812	N/A	$\mathbf{+}$
Asset Renewal Funding Ratio	≥ 1.05	0.897	0.981	N/A	¥

#### Key

<sup>1</sup> Target ratios per Department of Local Government (DLG) Guidelines except the Debt Service Cover Ratio which is a target devised by UHY Haines Norton (and based on experience). For information, DLG Guidelines establish a target Debt Service Cover Ratio of 5.

Within acceptable

banding as per guidelines

<sup>2</sup> The 3 year trend compares the 2014 ratio to the average of the last 3 years (except for the Asset Consumption and Asset Renewal Funding Ratios which are the 2 year trend).

#### **COMMENT ON RATIOS (CONTINUED)**

Ratios provide useful information when compared to industry and internal benchmarks and assist in identifying trends. Whilst not conclusive in themselves, understanding ratios, their trends and how they interact is beneficial for the allocation of scarce resources and planning for the future.

We provide commentary on specific ratios (identified as red in the table above) as follows:

#### **Asset Sustainability Ratio**

This ratio measures the extent to which assets are being renewed/replaced as compared to the amount consumed (depreciation).

A ratio less than 0.90 indicates the local government may be having difficulty undertaking a sustained capital investment program sufficient to renew/replace assets whilst, at the same time, negating the effect of inflation on purchasing power over time.

The 2014 ratio (0.668) shows an improvement from the 2013 ratio (0.395) although it is still below the acceptable banding provided in DLG guidelines. In addition the three year average is trending downwards.

Interpretation of this ratio should be considered together with the Asset Consumption Ratio (ACR) (above target at 0.764) and the Asset Renewal Funding Ratio (ARF) (within acceptable banding at 0.897).

The ACR and the ARF for the year suggest the Council is currently replacing or renewing its existing assets at about the same rate they are wearing out. Notwithstanding this, the Council should consider reviewing the Shire's long term capital investment program to help ensure asset renewal is maintained at an appropriate level with sufficient funding support in the future.

Another consideration is the recent revaluation of land and buildings (during the current year ended 30 June 2014) and future revaluation of infrastructure (during the coming year ended 30 June 2015). The resultant effect the depreciation expense will have on these ratios following the revaluation will also need to be monitored.

A final point is the interpretation of these ratios is much improved if they are calculated as an average over time (at least 5 years) as this reduces skewing by large scale intermittent investment in major infrastructure.

#### Summary

Whilst all ratios (with the exception of the Current Ratio) are new and we accept it may take some time for their implication to be fully understood, they should be duly considered as part of the overall financial management of the Shire.

In addition to other financial practices, we suggest it is prudent for Council and management to monitor all ratios in future financial years as they strive to manage the scarce resources of the Shire.

#### Management Response

We agree with observations above in regards to the asset sustainability ratio and provide further comment as follows:

The Shire has been making a concerted effort in the investment of renewing existing assets illustrated by the significant increase in the ratio from 0.395 to 0.668 between 2012-13 and 2013-14, a change of 169% representing a significant improvement. The Asset Management Plans for 2014-24 is forecasting an average expenditure on renewable assets of 0.988 which is in line with the Department of Local Government and Communities (The Department) Guidelines.

#### **COMMENT ON RATIOS (CONTINUED)**

#### Management Response (Continued)

The Department has provided Local Authorities best practice guidelines (Circular no. 18 –June 2013) on ratios a target band which starts at the basic and ends at the advanced level. These advanced targets were placed in the Integrated Planning Framework with the intention that the Shire would be meeting most if not all advance targets by 2017.

Verbal discussions with the officers of the Department confirm that they do not have any immediate concerns with the Shire's performance as long as the basic standards are being met. This is collaborated by the Department writing to the Shire in September with the following comments in reference to the 2013/14 Integrated Planning and Reporting Assessment.

**Excerpt from the letter to the Shire:** 

"Your Strategic Community Plan and Corporate Business Plan provide a strong foundation for your council and administration to meet the immediate and long-term sustainability challenges facing your community. In particular, they will continue to be valuable planning tools in addressing the community development priorities that you have set for the years ahead."

The Local Government Advisory Board also acknowledged in their report to the Minister for Local Government and Communities on the amalgamation of Local Metro Councils that the financial position of the Shire changed from being "vulnerable" to "good" which is reflection of the hard work undertaken by the administration in the last three years to ensure that Shire is being run responsibly with a view to long term sustainability.

In this light, we agree that the monitoring of these ratios is vital and need to be considered in a longer term for which the current statistics are in-adequate to make a call on.

We noted no other matters we wish to draw to Council's attention.

N

#### **UNCORRECTED MISSTATEMENTS**

We advise there were no uncorrected misstatements noted by us during the course of our audit.

We take this opportunity to thank the Chief Executive Officer and all staff for the assistance provided during the audit.

Should you wish to discuss any matter relating to the audit or any other matter, please do not hesitate to contact us.

Yours faithfully

DAVID TOMASI PARTNER
