

2021 AMG Cycling City of Kalamunda

Event Background

In October 2021, Perth will become the playground for the largest mass participation, multisport event the city has even seen – the Australian Masters Games (AMG).

The Australian Masters Games (AMG) is one of the largest multi-sport events in Australia that brings together weekend warriors from around Australia, and the world, to enjoy an extensive sporting and social program in an exciting holiday destination.

The AMG is the original masters event in Australia. Owned by the Confederation of Australian sport, it was first held in 1987 and has attracted over 136,000 Games participants since its creation. 2021 will be the 18th edition of this established multi-sport, mass participation event and will take place in Perth, Western Australia from 9 to 16 October 2021. This is the second occasion that Perth has hosted the Games, the last time being in 1993.

Traditionally the AMG comprises a sport program of between 40-55 sports, with no qualification criterion applicable other than participants must meet the minimum age requirement, which in most sports is 30 years.

- 50+ sports
- 18th edition of the Games
- First held in 1987
- \$10 million economic impact to WA anticipated

Cycling at the Australian Masters Games

Cycling has a long history with the Australian Masters Games having featured at every Games since the first iteration in 1987.

Previous Games have featured road cycling, track cycling, BMX, and mountain bike cross country. Road cycling remains the premier cycling event at the Australian Masters Games with the highest and most consistent participation numbers.

With the varied terrain, beautiful vistas and strong cycling community Western Australia is the perfect place to reinvigorate the Cycling program and provide our participants with an event experience only available in Western Australia.

2021 AMG Proposed Road Cycling Program

In 2021 the Australian Masters Games plans to offer the traditional road cycling program over four days consisting of a road race, individual time trial, team time trial and criterium. Individual winners will be presented medals for their age group. An overall team event will be introduced to drive engagement of cycling clubs from Perth and interstate, the teams results in all four races will count toward their final position.

The 2021 AMG Project Management Team have engaged Chris Thompson from CycleSense as the Race Director for the Road Cycling program. Chris has a real passion for the sport and great experience in delivering elite and community cycling events in Western Australia and interstate including the 2018 Commonwealth Games and multiple UniSport Nationals.

The conservative combined participation target across the three events of the road cycling program is 550.

Individual Time Trial

Proposed course and time

Wednesday 13 October 2021

Pickering Brook short circuit

[Course Map](#)

Start and finish either at Pickering Brook School or Core Cider

Age groups

Category 1 (30 – 39)
