FURFARO, Ray

As a third generation local of Pickering Brook, I was born, raised, and educated in Pickering Brook and Kalamunda, so I know what our community needs.

I co-founded Perth Hills landowners for Tourism and Subdivision group. In the 3 years under my leadership we have created a commitment from the State Government to open up our area for tourism.

My main priorities are aged care, tourism, job opportunities and improved public facilities to encourage families and tourists to visit our ward.

For the past 19 years I have had a successful gardening business, prior to this I was in Senior Management in retail, and an Area manger for a total of 24 years.

My strengths are in Business administration and communications. I am a strong advocate; unafraid to speak up for residence concerns, and to ensure our ward receives the funding it deserves to preserve our future.
