GRIMES, Robert

Running for council to represent the people of the South East Ward of Kalamunda.

If elected I will rigorously go before council ensuring your voices are heard.

Each year residents are slugged by ever increasing council fees and charges, when with a growing population the shires revenue is natural increasing any way.

Councils these days treat the citizens as a subjugated population to be ruled over by endlessly increasing rules, regulations, taxes and charges. More red tape and increasing the cost of living is the only answer they offer. This is the sort of mentality that I see needs changing.

The council has created a hostile environment in the south east ward for some of the residents by bungling rezoning proposals . This needs to be addressed .

My concern is what is best for the majority of the people in the South East Ward.
