CANNON, Mary

As a local resident of over 10 years. I have watched our community grow into a vibrant place to live, however there is still more to do. Being a mother of 3 children, working as a public servant delivering services within the health department. I understand the pressures of work and home life balance.

I am committed to deliver for my community, an understanding of changes and their effects on all of us.

I am passionate about our community to create a safer environment and contribute to developing resources we all can use. Raising your concerns and being able to voice your issues is my commitment to you.

With your support, I will ensure we continue growth in our community. Help you understand the policy and legislation's that determine outcomes. Most importantly I will be your voice.
