BOYES, Rachel

We have a unique hills haven and the environment we surround ourselves in is paramount to the health and wellbeing of all of us. We need the right balance to ensure we accommodate current residents and preserve our biodiversity for future generations. I am perceptive towards our multi-generational needs, business needs and the importance of a sustainable future.

A mother of 2 with a passion for serving community, proficiency in small business and 20 years' experience in the finance industry. I've got what it takes.

I have the courage to look at the hard questions, the tenacity to see things through and the integrity to do things right. A vote for me is a vote for all of these things and I will be honoured to work with you and to represent you.
